Resources and Services Management

Overview

This document provides comprehensive instructions for Vendor Managers to manage resources and service offerings within OneForma. It covers the complete process of:

- Adding and inviting new resources, including Agencies, Professionals, and Expert Talent.

The document details how to create, update, approve, reject, and bulk manage service rates, ensuring alignment with project requirements. Also, it explains how to effectively filter, search, and invite resources for jobs, and how to oversee service contributions.

This guide is designed to help Vendor Managers do the following:

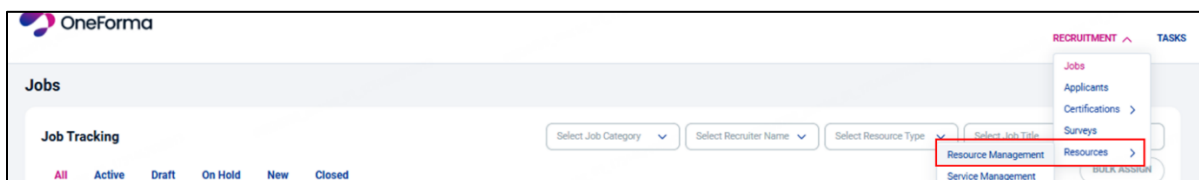

- Streamline vendor management processes
- Maintain data accuracy
- Ensure smooth collaboration between vendors and OneForma

Add New Resources

You can add a new vendor resource—such as an agency, professional, or expert talent (expert talent are crowd resources but they need to be invited to onboard to OneForma), to OneForma. After they are added, the resources will appear in the **Available Resources** section.

Note: Any user email that is deleted from the OneForma platform cannot be used to register again to OneForma. Each email is associated with a user account. If the account is deactivated due to compliance issue or if the user deleted their account, the same email id cannot be used to register in OneForma.

1. Navigate to **Recruitment** module, select **Resources**.
2. Select **Resource Management**.

3. Click **Add New Resource**.

Note:

- For all resource types, **Resource Signup URL**, **Invite Send Date** (current date/time), and **Expired Date** (two weeks from the current date) are system populated and cannot be edited.
- When entering email addresses to invite, you cannot re-use an email address associated with a user, blocked or removed from OneForma. The application throws an error message in such scenarios.
 - Resources get removed from OneForma if they engage in fraudulent activities.
 - Resources will also have a fraud note registered against their account.
 - When resources delete their OneForma account themselves, the recruiter cannot invite

Expert Talent (Crowd)

1. Select **Expert Talent** from the **Resource Type** drop-down.
2. Enter the following details.
 - First Name
 - Last Name
 - Email Address
3. Click **Send Invitation**.

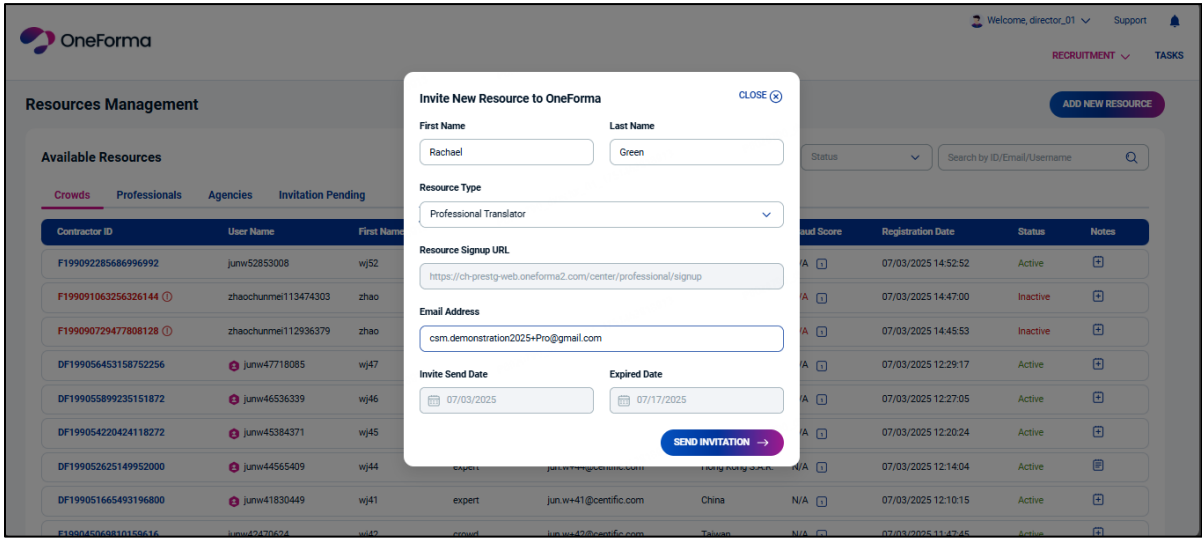

Note: You will receive a confirmation message after the invitation is sent.

4. Click **Go to Resources**.

Professional

1. Select **Professional Translator** from the **Resource Type** drop-down.
2. Enter the following details.
 - First Name
 - Last Name
 - Email Address
3. Click **Send Invitation**.

The screenshot shows the OneForma Resources Management interface. A modal form titled 'Invite New Resource to OneForma' is open, allowing the user to add a new resource. The form includes the following fields:

- First Name:** Rachael
- Last Name:** Green
- Resource Type:** Professional Translator (selected from a dropdown)
- Resource Signup URL:** <https://ch-prestig-web.oneforma2.com/center/professional/signup>
- Email Address:** csm.demonstration2025+Pro@gmail.com
- Invite Send Date:** 07/03/2025
- Expired Date:** 07/17/2025

A 'SEND INVITATION' button is located at the bottom right of the modal. The background shows a table of available resources with columns for Contractor ID, User Name, First Name, Last Name, Email Address, and Status.

Note: You will receive a confirmation message after the invitation is sent.

4. Click **Go to Resources**.

Agency

1. Select **Agency Owner** from the **Resource Type** drop-down.

Note: Default selection is **Agency Owner**.

2. Enter the following details.

- First Name
- Last Name
- Agency Name
- Email Address

Note: You must use a new email address that is not associated with OneForma.

3. Click **Send Invitation**.

4. Click **Go to Resources**.

You can track the status of your invites made to vendor resources.

- Note:** You can also re-invite the resources, post the expiration date.

Welcome, teamleader_01+3

3. Navigate to the **Professionals** tab.
4. Apply filters to find relevant resources.
5. Select the checkbox next to all resources you want to invite.
6. Click **Invite to Job**.

Note: To invite a single resource, go to **Actions** column, click the ellipsis and select

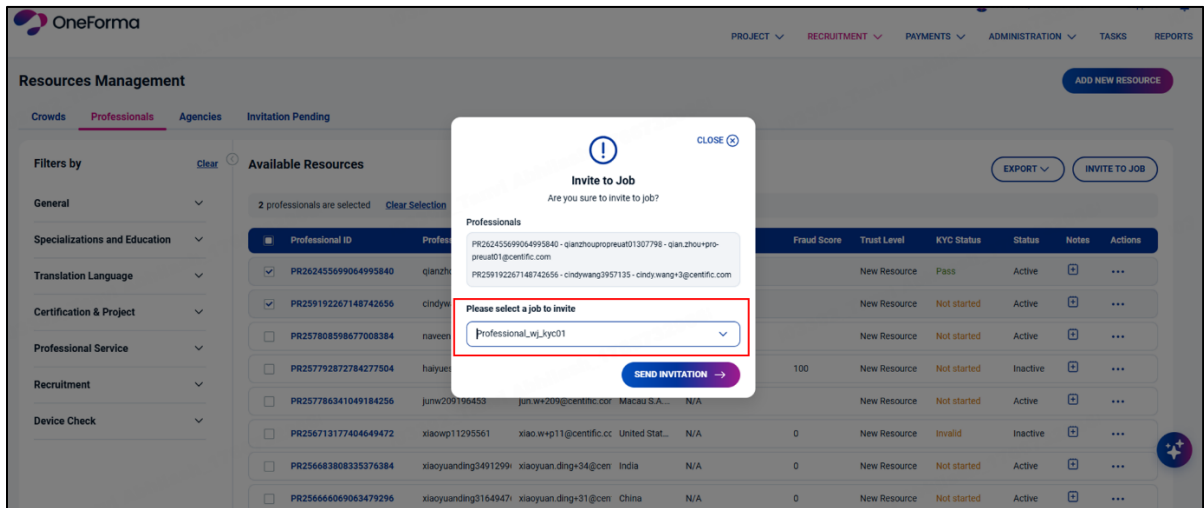

Invite to Job.

The screenshot shows the 'Resources Management' section with the 'Professionals' tab selected. On the left, there are filters for General, Specializations and Education, Translation Language, Certification & Project, Professional Service, Recruitment, and Device Check. The main area displays a table of 'Available Resources' with 2 professionals selected. The table columns include Professional ID, Professional Name, Email, Country, Native Language, Fraud Score, Trust Level, KYC Status, Status, Notes, and Actions. The 'INVITE TO JOB' button is highlighted with a red box in the top right corner of the table area.

6. Select the job to which you want to invite the agencies.
7. Click **Send Invitation**.

8. Click **Go To Resources**.

Export Resource Details

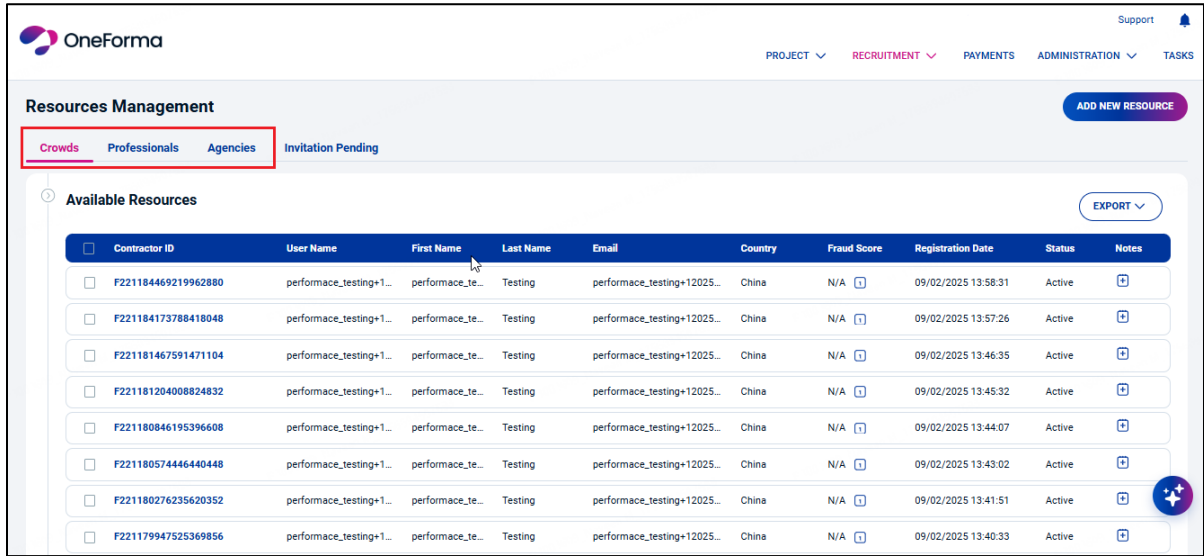

On the Resources Management page, you can export resources using any of these options.

- **Export All Filter Result:** Apply filters and export them. This option does not require you to select resources.
For example: You can filter all the fraud users and click **Export All Filter Result**.
- **Export:** After applying filters, select relevant resources and export them. This option requires you to select checkboxes of the relevant resources.
For example: After filtering all fraud resources, you can select two specific fraud users from the list and click **Export**.

Export All Filter Results

You can apply the required filters and download the resource details into a **.xls** file.

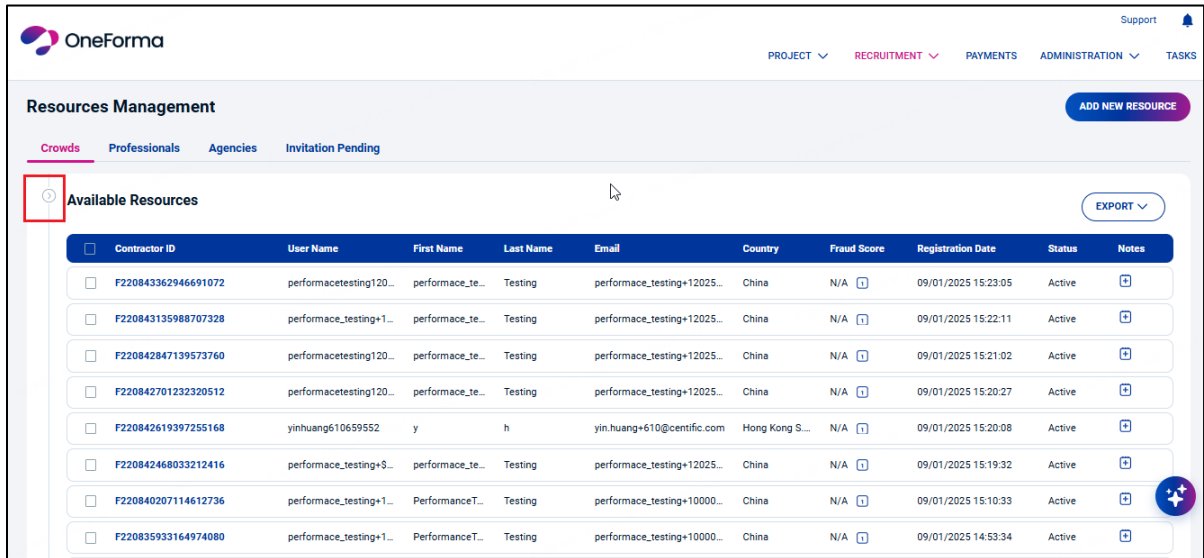

1. Navigate to the desired resource type tab (crowds, professionals, and agencies).

The screenshot shows the OneForma interface with the 'Resources Management' section. The 'Crowds' tab is selected and highlighted with a red box. The 'Available Resources' table lists several resources with columns for Contractor ID, User Name, First Name, Last Name, Email, Country, Fraud Score, Registration Date, Status, and Notes. The table is currently empty of data rows.

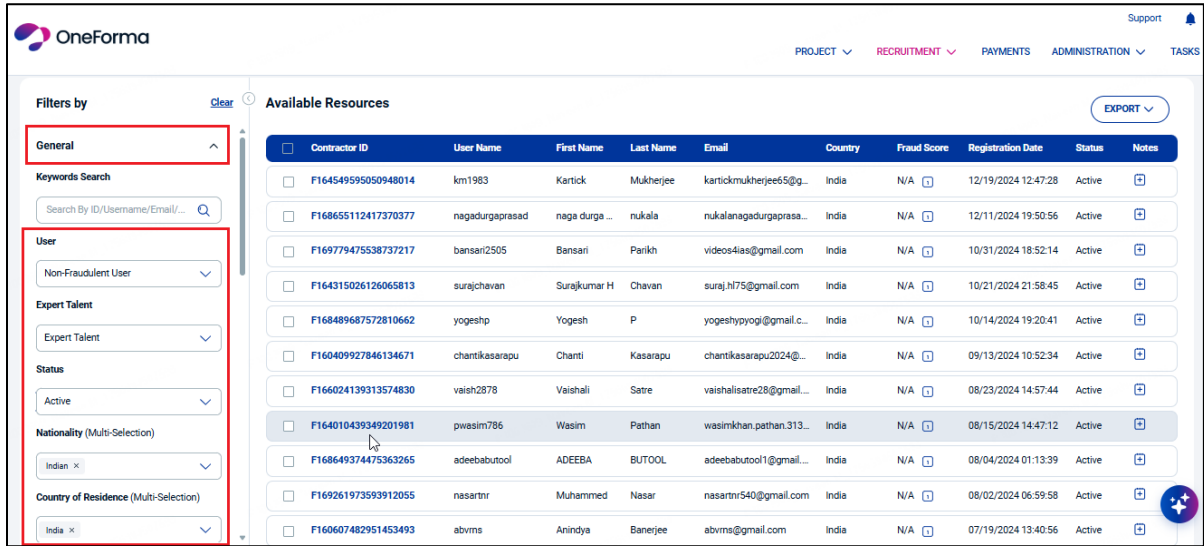

2. Expand the left navigation pane to view the filter categories.

Note: Each resource type uses different categories and associated parameters to find the relevant resource(s).

The screenshot shows the OneForma interface with the 'Resources Management' section. The 'Professionals' tab is selected and highlighted with a red box. The 'Available Resources' table lists several resources with columns for Contractor ID, User Name, First Name, Last Name, Email, Country, Fraud Score, Registration Date, Status, and Notes. The table is currently empty of data rows.

3. Apply relevant filters.

Note: You can only select 50,000 resources from any given resource (crowd,

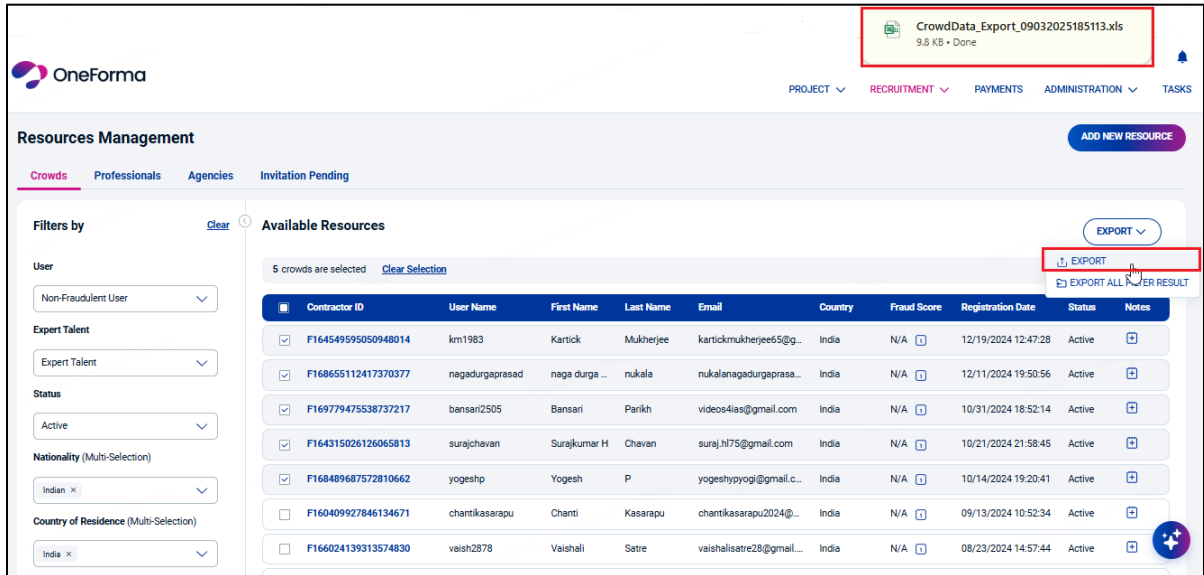

professional, agency) tab.

The screenshot shows the 'Available Resources' table in the OneForma interface. A modal message is displayed in the center: "Data volume exceeds limit (50,000 rows). Please reduce query range." with a "GOT IT" button. The table lists resources with columns: Contractor ID, User Name, First Name, Last Name, Email, Country, Fraud Score, Registration Date, Trust Level, and KYC Status. The table is filtered to show 1319499 results out of 10000 total.

Use AI Assistant

You can use the integrated AI Assistant in OneForma for the following services.

- Finding the right talent for vendors and crowd resources based on job requirements.
- Has a standard Buy Rate calculator that helps recruitment teams estimate appropriate rates based on defined criteria.

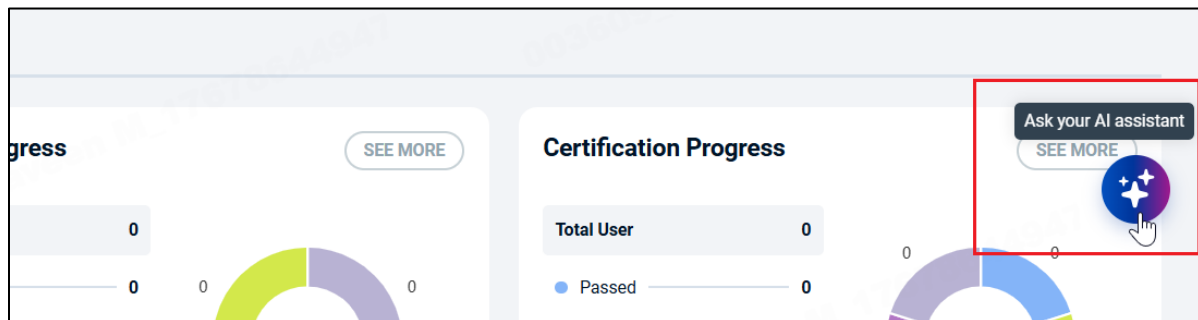

Note: For better results, clear the history and cache on your PC before using AI Assistant.

Search Talent

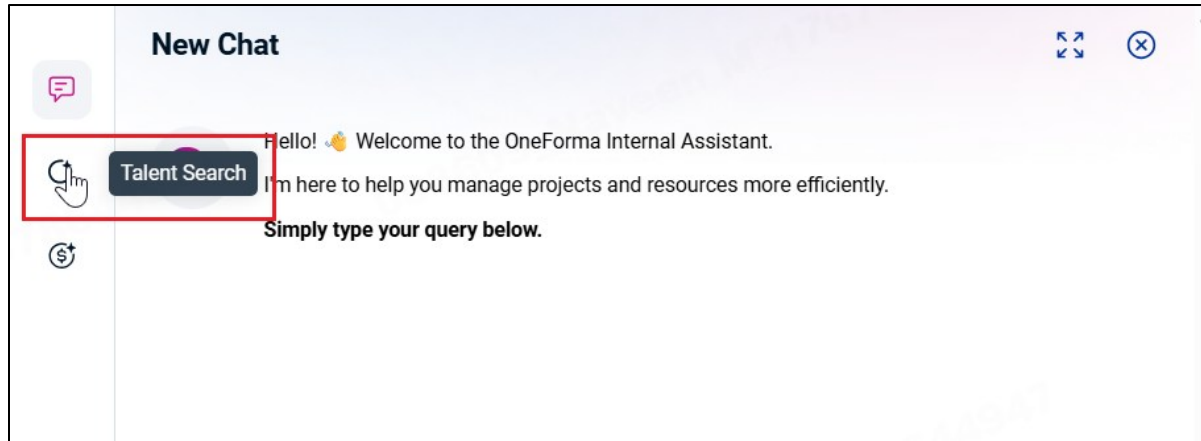

You can provide your conditions in natural English to identify the right resources.

On the OneForma page, click **Ask the AI Assistant**.

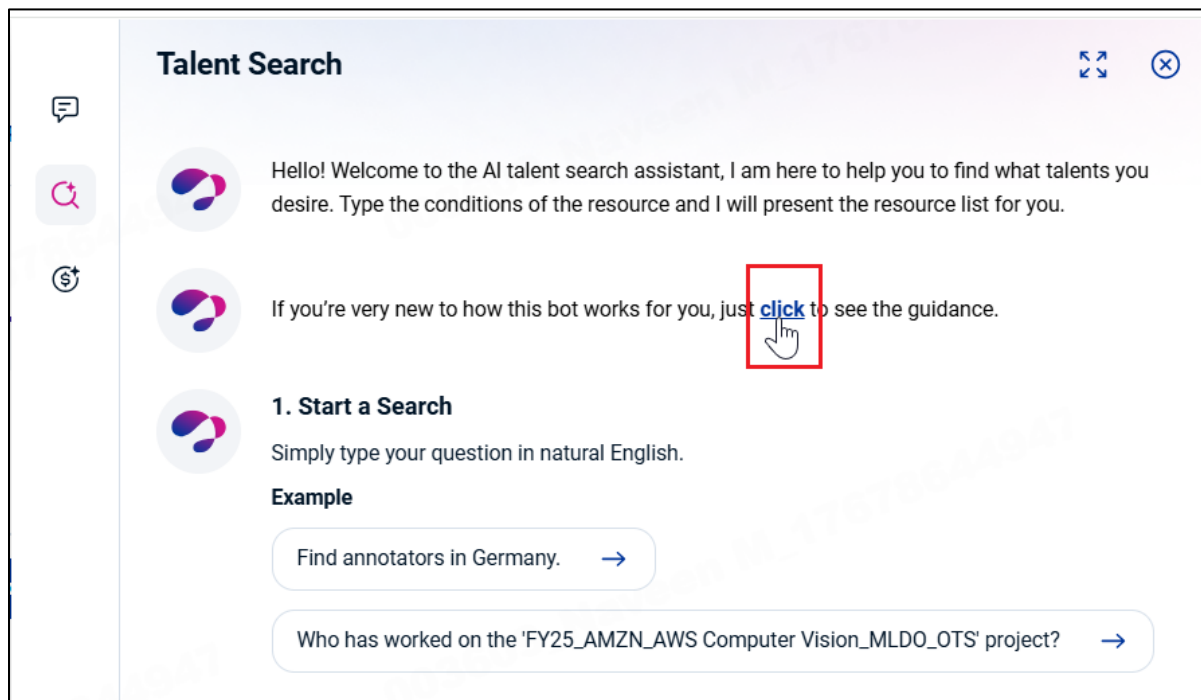

Note: You can find the AI Assistant icon from the bottom right corner of the home page.

1. Click the **Talent Search** icon.

2. Click on the **click for guidance** for instructions on how to search.

3. Enter your query to find the right resource.

Talent Search

desire. Type the conditions of the resource and I will present the resource list for you.

If you're very new to how this bot works for you, just [click](#) to see the guidance.

2026-01-08 14:59:43

Show me all the resources who've worked on translation of Tamil to English.

Get Buy Rate

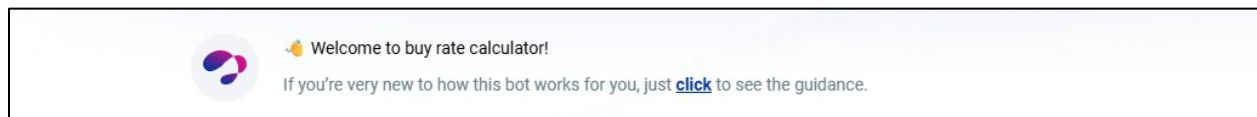

You can calculate the buy rates for tasks you'll be assigning to resources using the integrated AI Assistant. The application uses the following factors to find the buy rate.

- **Language & Locale:** Native language and locale.
- **Hiring Country:** Country of Residence; country from which the resource needs to be hired.
- **Expertise Level:** Domain and skill level (Generalist/Expert (A, B, C, D, E))
 - Generalist A represents resources with broad knowledge across domains.
 - Expert represents resources with deep subject matter expertise; each letter (A, B, C, D, E) corresponds to a set of domains.
 - A: General
 - B: Arts, Beauty, Current Events, Entertainment, Fitness, Literature, and Sports
 - C: Economics, Education, Finance, History, Human Resources, Marketing/Sales, and Self Help
 - D: Biology, Chemistry, Computer Science, Engineering, Mathematics, Physics, and Statistics
 - E: Coding, Data Science, Law, and Medicine
- **Workstream:** Job nature; the application supports four workstreams (Red Teaming, Content Writing, Content Rating, RLHF, and Data Labeling)

You can use either of these approaches to get the buy rate.

- Direct Question Approach
- Guided Conversation Approach

Note: Click on the text link for instructions on the prompt style you must use.

Direct Question Approach

You can use this approach if you know all the details such as locale, language, to get your buy rate.

1. Enter the prompt in the text box.
2. View the buy rate.

Show me the buy rates for Expert A crowd resources in native countries with 'en-AU,en-US,en-IN' for content rating.

Here are the buy rates for the locales you entered.
Workstream Type: Content Rating
Skill Level: Expert A

Locales	Hiring Country	Buy Rate
en-AU	Australia	\$22
en-US	US	\$20
en-IN	India	\$4

Any changes would you like to make for the buy rate?

Yes
or
No

Guided Conversation Approach

If you're a new user in OneForma, you can choose this approach. In this, you will go through a structured method to get your buy rate.

1. Enter **I need a buy rate** in the text box.
2. Enter the language and locale.
3. Click **Yes** if you want to more locale.

Note: If you do not want more locale to be added, click **No**.

Buy Rate Calculator

First provide Language & Locales. (e.g. English, US; French, FR)

2026-01-12 14:39:56

Got It!
 You entered locales: English, US (en-US); English, India (en-IN)
 Would you like to add more locales?

Yes
or
No

2026-01-12 14:42:59

I need a buy rate.

en-US, en-IN

No

4. Enter the countries from which you want the resources from.
5. Select the workstream.
6. Select the skill level of the resource.

Perfect!
 Hiring Country: India, Germany, France
 Next, what is the workstream type for these locales and countries?

Red Teaming
Content Writing
Content Rating
RLHF
Data Labeling

2026-01-12 14:47:40

India, Germany, and France.

Content Writing

7. View the recommended buy rates.

Here are the buy rates for the locales you entered.
Workstream Type: Content Writing
Skill Level: Expert B

Locales	Hiring Country	Buy Rate
de-DE	India	N/A
en-IN	India	\$6
fr-FR	India	N/A
en-US	India	N/A

Any changes would you like to make for the buy rate?

Yes or No

The following table shows the filter categories and their description.

Category	Description
General	Lists parameters specific to general information
Skills and education	Lists parameters specific to skill set and education
Translation language	Lists parameters specific to translation
Certification & Project	Lists parameters specific to project and certification
Recruitment	Lists parameters specific to recruitment

Device Check	Lists parameters specific to device check for data collection
Fraudulent	Lists fraud notes against the resource
KYC Information	Lists Identity Verification status of the resource
Capacity Check	Lists parameter specific to resource's workload
Payment	Lists parameter specific to resource's payment status

Note:

- In the following sub-sections, most of the parameters are fetched from resource profile details. These details are provided by resources during their onboarding.
- Rows that are marked with * are parameters, which support the selection of multiple filtering options.

General

The following table shows the parameters and description of General filter category.

Parameter	Description
Keywords Search	Filters relevant resource(s) using few strings of contractor ID or username or email
User	Filters resources based on their fraudulent or non-fraudulent metrics
Expert Talent	Filters resources based on their crowd resource type • Normal Crowd • Expert Talent
Status	Filters resources based on their account status • Active • Inactive
* Nationality	Filters resources based on their nationality
* Country of Residence	Filters resources based on their locations
* State Name	Filters resources based on their state names
* City	Filters resources based on their city names.

* Native Language	Filters resources based on their native languages
* Ethnicity	Filters resources based on their ethnicities
* Skin Tone	Filters resources based on their skin tones
* Age Group	Filters resources based on their age demographics
Gender	Filters resources based on their genders • All • Male • Female • Non-binary • Other • I prefer not to answer
Phone Number Status	Filters resources based on their phone number verification status
CV Upload	Filters resources based on the CV availability within OneForma
Registration Date	Filters resources based on their registration date • Select a start date and end date for resources joined within that period.

Skills and Education

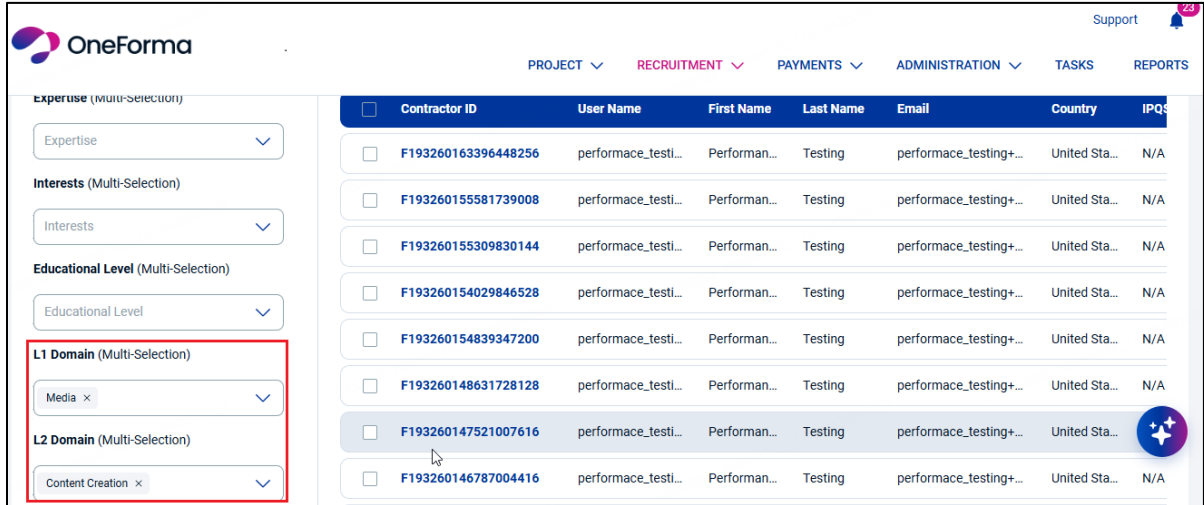

The following table shows the parameters and description of Skills and Education filter category.

PARAMETER	DESCRIPTION
Industries	Filters resources based on the industries they are serving in
* Skills	Filters resources based on the skill sets
* Expertise	Filters resources based on their industrial/domain skill expertise
* Interests	Filters resources based on their area of expertise
* Education Level	Filters resources based on their education
* Domain	Filters resources based on the domain they are working.
* Sub-domain	Filters resources based on the sub-domain they are working.

Domain/Sub-domain Mapping

With domain and sub-domain mapping filter added to export functionality, you can now filter resources based on the following condition.

1. Select the relevant domain from the **L1 Domain** drop-down.
The **L2 Domain** drop-down is then enabled automatically with options mapped to the selected L1 Domain.
2. Select the relevant sub-domain from the **L2 Domain** drop-down.

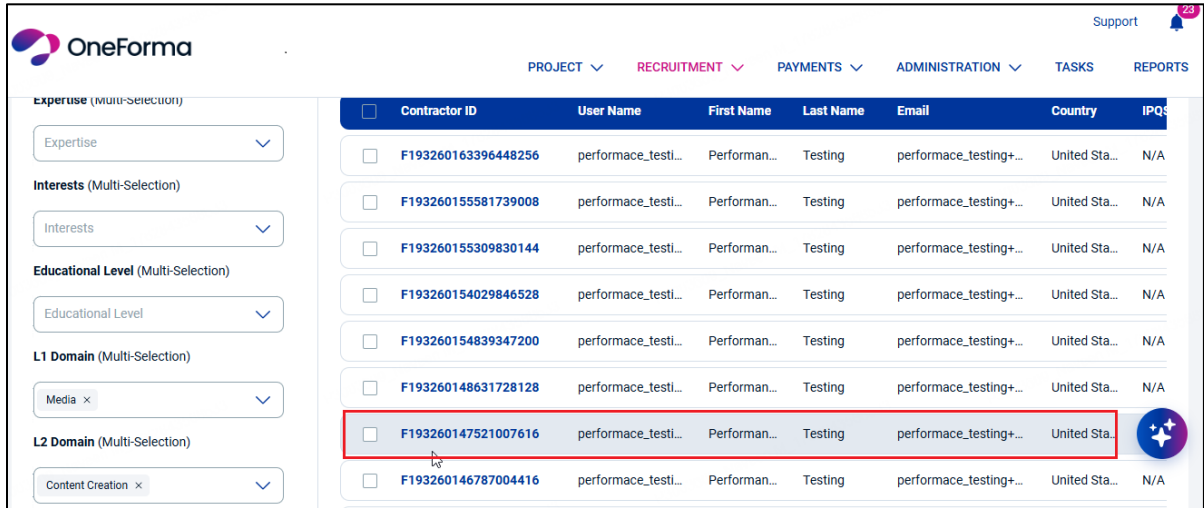

The screenshot shows the OneForma interface with the following filters selected:

- Expertise (Multi-Selection):** Expertise
- Interests (Multi-Selection):** Interests
- Educational Level (Multi-Selection):** Educational Level
- L1 Domain (Multi-Selection):** Media
- L2 Domain (Multi-Selection):** Content Creation

The table below shows the filtered results:

Contractor ID	User Name	First Name	Last Name	Email	Country	IPQS
☐ F193260163396448256	performace_testi...	Performan...	Testing	performace_testing+...	United Sta...	N/A

Note: This section displays a credibility score of the selected resource in each mapped domain and sub-domain.

- *Score of 0:* Resource is less appropriate for a given job.
- *Score of closer to 1.0:* Resource is more suitable for a given job.

Note: You must select the domain filter to enable the sub-domain filter.

Translation Language

PARAMETER	DESCRIPTION
Source Language	Filters resources based on their source language
Target Language	Filters resources based on their target language
* Technical Field	Filters resources based on their technical discipline

* Proficiency Level	Filters resources based on their language proficiency level	The
---------------------	---	-----

following table shows the parameters and description of Translation Language filter category.

Certification & Project

This parameter displays all the certifications and projects available within OneForma. This helps recruiters filter resources based on the selected certifications and projects.

PARAMETER	DESCRIPTION
* Certification	Filters resources based on certifications associated with the resource
* Project	Filters resources based on resource's project name

Recruitment

This parameter displays users based on jobs, including their job application process status and fraud check.

Note: You can only filter resources based on **Applicant Status** and **Fraud Check** only when a job is selected.

PARAMETER	DESCRIPTION
* Job name	Filters resources based on active jobs
* Applicant Status	Filters resources based on their job application status
* Fraud check	Filters resources based on their fraudulent status, which includes the application-specific fraud measures.

Device Check

This parameter displays users based on the device type (smartphone, Tablet, etc.) they use to work on OneForma, along with their verification status in OneForma.

Fraudulent

This parameter displays users based on their fraud score in OneForma. Fraud scores are calculated based on resources work ethics within OneForma.

For example: You enter 80 in the **Fraud Score** field and the system will display users with a fraud score of less than or equal to 80.

KYC Information

This parameter displays users based on their identity verification status in OneForma. Identity verification is handled by Persona, a third-party identity verification management platform.

STATUS	DESCRIPTION
Fail	Resources whose identity verification is failed.
Invalid	Resources who do not require identity verification.
Marked for review	Resources whose identity verification is moved for a manual review.
Not started	Resources who have not started identity verification
Pass	Resources who have successfully completed their identity verification
Started	Resources who have started their identity verification.

The following table displays users based on KYC information available in the user profile.

PARAMETER	DESCRIPTION
* Nationality	Filters resources based on their nationality.
* Gender	Filters resources users based on their gender.
* Age	Filters resources based on their age; input a number to filter resources with less than or equal to the given number.

Capacity Check

This parameter displays users based on their workload capacity. The following table shows the parameters and description of Capacity Check filter category.

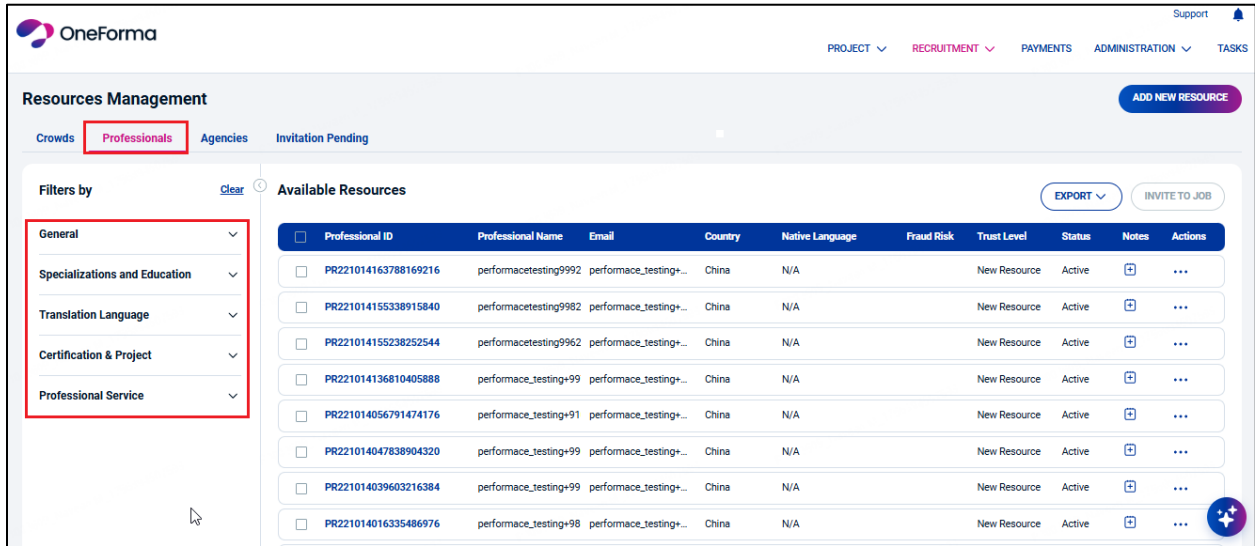

PARAMETER	DESCRIPTION
Number of Joined Active Projects	Filters resources based on their number of active project associations.
Committed Hours Per Week	Filters resources based on their workload commitment hours.

Payment

This parameter displays users based on their activity status in payment POs.

Professional

The following are the categories and their parameters used to filter relevant professional resources.

The screenshot shows the OneForma Resources Management interface. The 'Professionals' tab is selected. On the left, there is a 'Filters by' sidebar with the following categories: General, Specializations and Education, Translation Language, Certification & Project, and Professional Service. The main area displays a table of 'Available Resources' with columns: Professional ID, Professional Name, Email, Country, Native Language, Fraud Risk, Trust Level, Status, Notes, and Actions. The table lists 8 resources, all with a status of 'New Resource' and 'Active'.

The following table shows the filter categories and their description.

CATEGORY	DESCRIPTION
General	Lists parameters specific to general information
Specializations and Education	Lists parameters specific to industry/domain specializations and education
Translation language	Lists parameters specific to translation
Certification & Project	Lists parameters specific to certification and project
Professional Service	Lists parameters specific to professional service
Recruitment	Lists parameters specific to recruitment
Device Check	Lists parameters specific to device check for data collection

Notes:

- In the following sub-sections, most of the parameters are provided by resources during their onboarding.
- Rows that are marked with * are parameters that support selection of multiple filtering options.

General

This category is the same as for **General**.

Specializations and Education

The following table shows the parameters and description of Specializations and Education filter category.

PARAMETER	DESCRIPTION
* Specializations	Filters resources based on resource's industry/domain expertise
* Educational Level	Filters resources based on resource's educational qualification

Translation Language

This category is the same as for **General**.

Certification & Project

This category is the same as for **General**.

Professional Service

The following table shows the parameters and description of Professional Service filter category.

PARAMETER	DESCRIPTION
Service Group	Filters resources based on their service offering (AI Development, Language Services, and so on.)
Service Name	Filters resources based on their sub-service offering (Data Collection, Grading, Translation, Transcription, and so on.)
Service Detail	Filters resources based on their service detail provided (Business Cards, Sign Language, and so on.)
Source Language	Filters resources based on their selected source language (English, Spanish, French, and so on.)
Target Language	Filters resources based on their selected target language (Tamil, Hindi, and so on.)

Note:

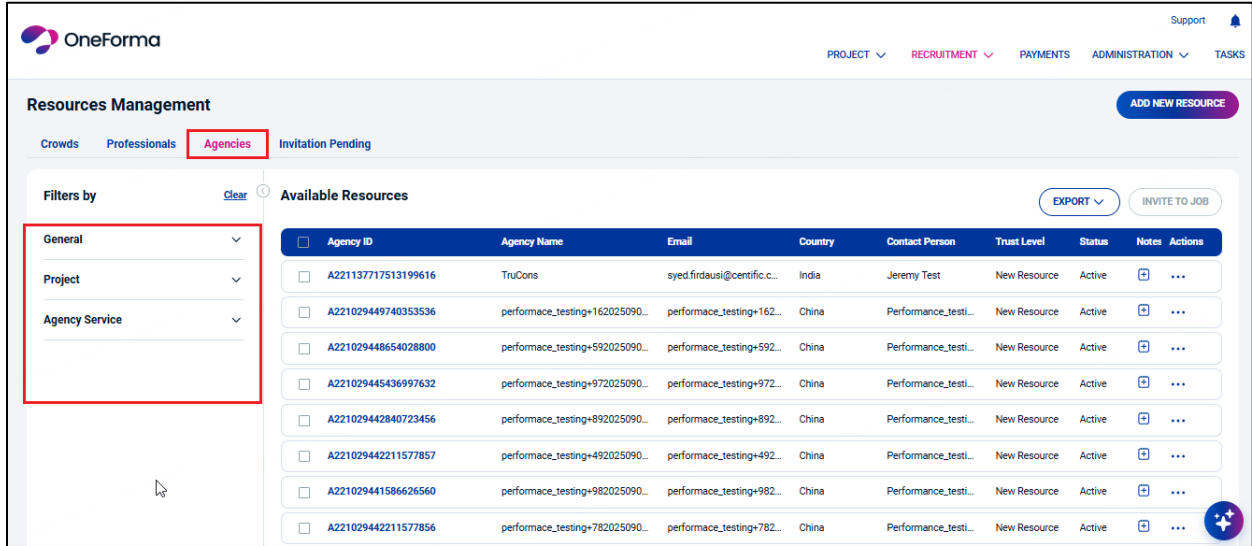

- Parameters such as Service Name and Service Detail get dynamically populated based on Service Group selection.

- Parameters such as Source Language and Target Language are only applicable for Language Services and Localization Service Groups.

Agency

The following are the categories and their parameters used to filter relevant agency resources.

The screenshot shows the OneForma Resources Management interface. The 'Agencies' filter category is selected and highlighted with a red box. The 'Available Resources' table lists various agency resources with columns for Agency ID, Agency Name, Email, Country, Contact Person, Trust Level, Status, Notes, and Actions.

Agency ID	Agency Name	Email	Country	Contact Person	Trust Level	Status	Notes	Actions
A221137717513199616	TruCons	syed.firdausi@certific.c...	India	Jeremy Test	New Resource	Active		...

A221029442840723456	performance_testing+892025090...	performance_testing+892...	China	Performance_testi...	New Resource	Active		...
A221029442211577857	performance_testing+492025090...	performance_testing+492...	China	Performance_testi...	New Resource	Active		...
A221029441586626560	performance_testing+982025090...	performance_testing+982...	China	Performance_testi...	New Resource	Active		...
A221029442211577856	performance_testing+782025090...	performance_testing+782...	China	Performance_testi...	New Resource	Active		...

The following table shows the filter categories and their description.

CATEGORY	DESCRIPTION
General	Lists parameters specific to the general information
Project	Lists projects specific to all agency resources
Agency Service	Lists parameters specific to professional service
Device check	Lists parameters specific to device check for data collection

General

The following table shows the parameters and description of General filter category.

PARAMETER	DESCRIPTION
Keywords Search	Filters relevant resource(s) using few strings of contractor ID or username or email
Status	Filters resources based on their account status - Active - Inactive
* Country	Filters resources based on their country of residence

* Trust Level	Filters resources based on their trust level • New Resource • Good Resource/High Rates • Average Resource • Bad Resource • Do Not Use
Registration Date	Filters resources based on their registration date • Select a start date and end date for resources joined within that period.

Project

This parameter filters resources based on the selected projects.

Agency Service

This category contains the same parameters as Professional Service. Refer to the [Professional Service](#) for table and notes.

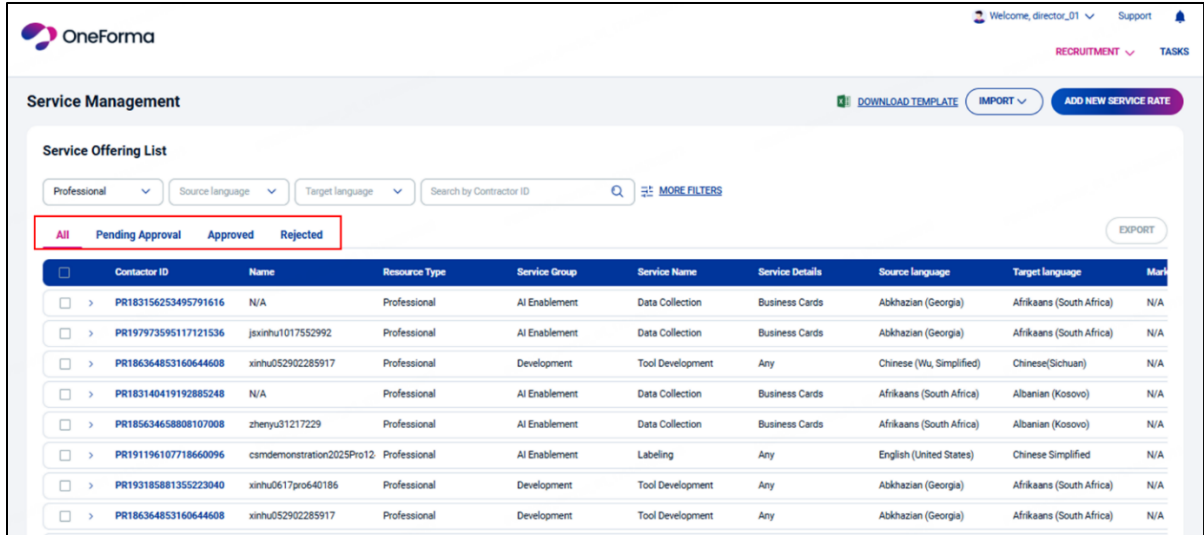

Manage Service Rates

Agencies and **Professionals** offer a range of services. As a Vendor Manager, you are responsible for:

- Adding service rates specific to the services offered by Vendor Resources.
- Approving/rejecting service rates offered by Vendors Resources.

The Service Management page contains four lists:

- **All:** Displays all the service offerings.
- **Pending:** Displays all service offerings with service rates that are pending approval.
- **Approved:** Displays all the service offerings with service rates that are approved.
- **Rejected:** Displays all the service offerings with service rates that are rejected.

3. From the top-right corner of **Service Management**, click **Add New Service Rate**.
4. Enter the following:

- **Select Vendor:** Use vendor Contractor ID or mail to find the contractor.
- **Service Group:** Contains broader service categories such as AI Enablement, Language Services, etc.
- **Service Name:** Contains sub-services of a particular service group.
- **Service Details:** Contains service details for the selected Service Group and Service Name.

- **Source Language:** Language from which a vendor resource needs to translate from.
- **Target Language:** Language to which a vendor resource needs to translate to.
- **Currency:** Displays options based on the vendor resource's place of residence.
- **Rate and Rate Type:** Enter the rate and select the rate type.
- **Special Conditions:** Enter any special conditions such as discounts or comments regarding the offer.

The screenshot shows the 'Add New Service Rate' modal in the OneForma application. The modal is centered and contains the following fields:

- Select Vendor:** A dropdown menu showing 'PR186062288258732032 Chris Dane icsinstructor.tanvi+5@gmail.com'.
- Service Group:** A dropdown menu showing 'AI Enablement'.
- Service Name:** A dropdown menu showing 'Data Collection'.
- Service Details:** A dropdown menu showing 'Pictures'.
- Source language:** A dropdown menu showing 'English (India)'.
- Target language:** A dropdown menu showing 'French (France)'.
- Currency:** A dropdown menu showing 'USD'.
- Rate:** A text input field showing '0.5' and a dropdown menu showing 'Per Task'.
- Special Condition:** A text input field showing 'Regular Rate'.

A 'SUBMIT' button with a right arrow is located at the bottom right of the modal. The background shows the 'Service Management' page with a table of service offerings and a sidebar with navigation options like 'Professional', 'Development', 'Tool Development', and 'Any'.

Notes:

- You must always select a **Service Name** for the **Service Details** field to be enabled.
- **Service Name** and **Service Details** change based on selected **Service Group**.
- **Service Details** change based on the selected **Service Name**.
- **Source Language** and **Target Language** fields are relevant only for **Language Services**, but these are mandatory fields for all the services.

5. Click **Submit**.

Note: The new service rate is added to the **All** tab and **Approved** tab under **Service Offering List**.

Note: The updated rates will be available on the **Service Management** page and is reflected in the vendor's profile.

Modify Service Rates

You can edit or delete the existing service rates that were approved. This functionality applies to both **professional** and **agency** resource types.

Notes:

- Service rate requests only in the **Approved** tab can be edited or deleted.
- Service rate requests in the **Pending Approval** tab cannot be deleted.

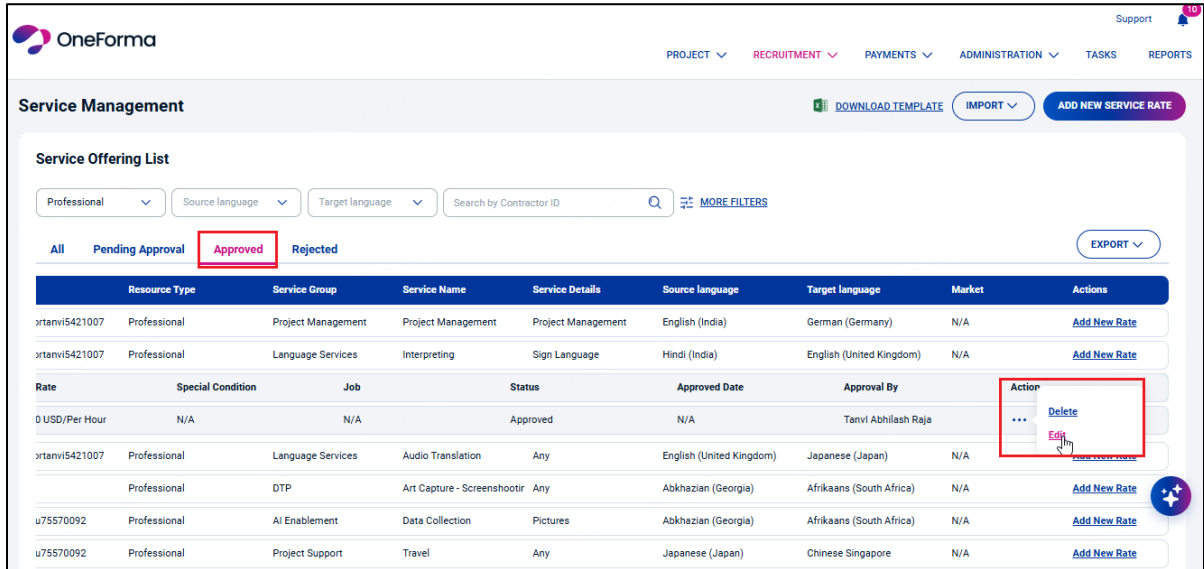

1. Navigate to **Recruitment** module, click **Resources**.

2. Click **Service Management**.

Edit Service Rate

1. Navigate to the **Approved** tab.

- From the **Service Management** table, locate the relevant contractor ID.
- Note:** Search using the **Contractor ID** filter to locate the contractor ID.
- Click the drop-down menu to see the contractor details.
- Navigate to the **Action** column and click the ellipsis menu.
- Click **Edit**.

Export and Import Service Rate

You can bulk upload or edit service rates for any service using the import service rate option.

- Navigate to **Recruitment** module, click **Resources**.
- Select **Service Management**.

3. Navigate to the **All** tab.
4. From the **Service Management** table, select the relevant contractor IDs.
Note: You can also search for a particular contractor ID to view and make bulk changes to their service offerings.
5. Click **Export**.
Note: All the selected contractor ID details are exported in Excel format and can be downloaded to the local system.
