Applicant Tracking and Review

Overview

This document outlines the process for tracking, reviewing, and managing applications submitted by different resource types—*crowd*, *expert talent*, *professional*, *agency*—on OneForma.

For **Crowd** and **Expert Talent**, recruiters are responsible for reviewing job applications after the candidates have applied for the job and submitted the application. Following the review, the recruiter can either approve or reject the application based on its alignment with project requirements.

For **Vendors** (Professionals and Agencies), the process differs slightly. Recruiters first post the job to the Professional or Agency. After the vendor accepts the invitation, the recruiter reviews the acceptance and determines whether to endorse or reject.

User Role

- Recruitment Director
- Recruiter Team Lead
- Recruiter

Filter Jobs

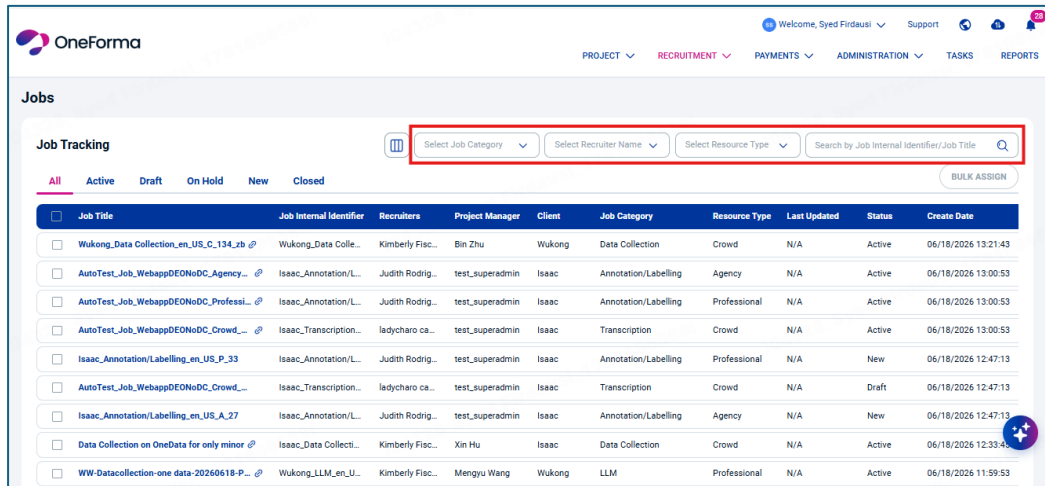

You can filter jobs under the **Job Tracking** page using the following methods:

- **Job Category:** Displays applicants based on the selected job category.
- **Recruiter Name:** Displays applicants under the selected recruiter's name.
- **Resource Type:** Displays applicants based on the selected resource type.
 - **Crowd**
 - **Professional**
 - **Agency**
- **Job Internal Identifier/Job Title:** Displays jobs based on the selected job ID or title.

Internal Identifier is the combination of

client name+ job category+ locale+ resource type

Column icon: Helps to select additional columns, as required, in the Job Tracking table.

Notes:

- Recruitment Directors can view all the posted jobs.
- Recruitment team lead can view all the jobs but can edit only the ones that are assigned to their team.
- Recruiter can view all the jobs but can edit only the ones that are assigned to them.

Review Job Details

This page outlines the steps that occur after a resource enters the job application process.

As a recruitment team member, you click on a published job to reach the **Job Details** page. On this page, you will see the following sections:

For Crowd:

The following sections are for crowd resources:

Hiring Progress

Displays the following hiring details:

- Resources Needed:** The number of applicants required
 - Endorsed Resources:** The number of endorsed applicants
 - In Progress:** The number of applicants in the job application workflow
 - Remaining:** The number of Resources Needed minus Endorsed Resources

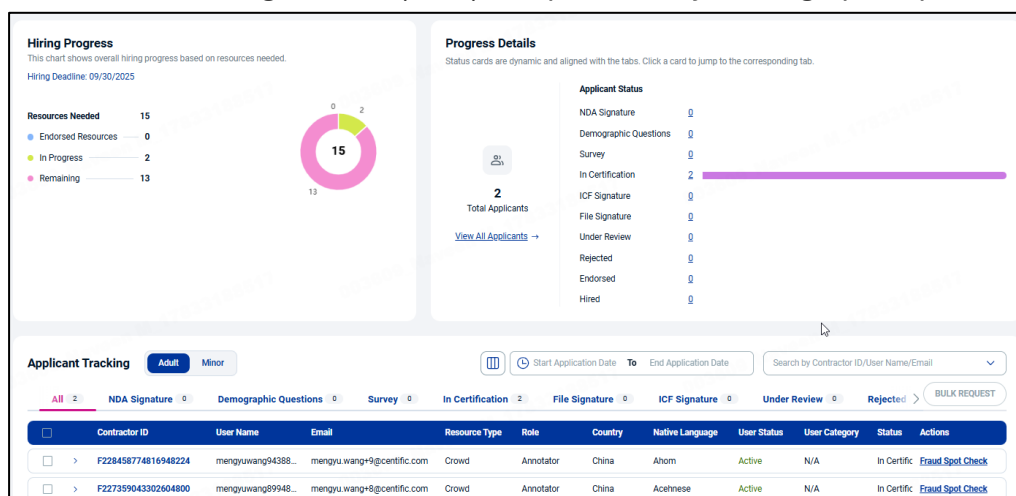

Progress Details

The information available in the **Progress Details** section correspond to the information available in the **Applicant Tracking** table. Their visibility is determined by the project configuration.

For example, if **PII** is not enabled during project setup, the **PII** tab and its corresponding information will not be displayed. Similarly, the available tabs and information may vary depending on the job category.

This section displays the number of resources at each stage of the job application workflow:

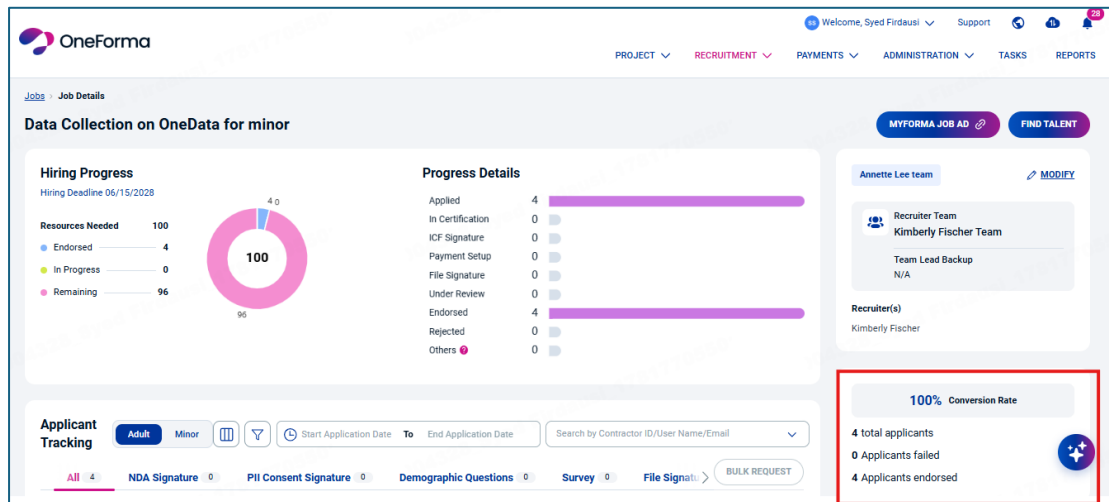

- **Applied:** Applicants who applied for job
- **NDA Signature:** Applicants in the process of signing the NDA Signature.
- **Demographic Questions:** Applicants who have started taking demographic questions.
- **Survey:** Applicants who have started taking survey.
- **In Certification:** Applicants who have begun certification
- **ICF Signature:** Applicants in the process of signing the In-Consent Form (ICF) form
- **File Signature:** Applicants in the process of signing the Statement of Work document(s)
- **Pending File Re-sign:** Applicants who are yet to sign the modified SOW document.
- **Under Review:** Applicants ready to be reviewed
- **Endorsed:** Applicants already endorsed
- **Rejected:** Applicants rejected or failed during the job application workflow
- **Others:** Applicants who are in other stages of the recruitment process, such as Non-Disclosure Agreement (NDA) setup, in-survey, demographic questions, etc.

Conversion Rate

View the applicant conversion percentage for the job.

- Total number of applicants
- Number of applicants failed the job application
- Number of applicants endorsed for the job

MyOneForma Job Ad

To copy and share the job link directly with applicants, click **MyOneForma Job Ad**.

Find Talent

The **Find Talent** button is available only for Crowd and Professional for the following job categories:

- Annotation/Labelling
- Judging/Grading
- Transcription
- Translation
- LLM

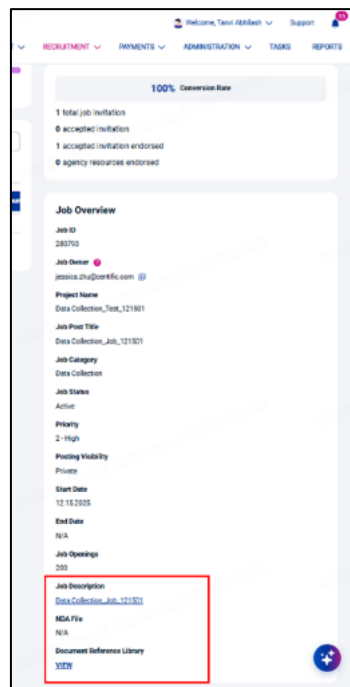

Applicant Tracking

Track applicants at each stage of their job application workflow.

Job Overview

View additional details specific to the project, such as job description and the project documents uploaded by the Project Manager.

1. Click the text link available to view **Job Description**.
2. Click **View** under **Document Reference Library** to view project guideline or internal documents uploaded by PM.

For Professionals:

The following sections are for Professional resources:

Hiring Progress

Displays the following hiring details:

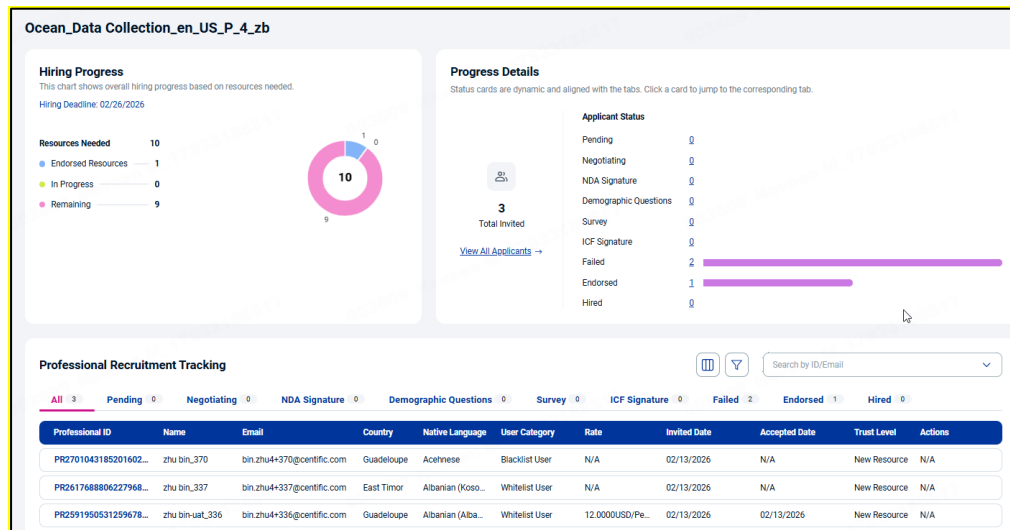

- **Resources Needed:** The number of applicants required
 - **Endorsed Resources:** The number of endorsed applicants
 - **In Progress:** The number of applicants in the job application workflow
 - **Remaining:** The number of Resources Needed minus Endorsed Resources

Progress Details

Displays the number of applicants at each stage of the job application workflow:

- **All:** All applicants invited for the job.
- **Pending:** Applicants who are yet to act on the job invitation
- **Negotiating:** Applicants who have accepted the job invite but are negotiating service rates
- **NDA Signature:** Applicants who are yet to sign the NDA Signature.
- **Demographic Questions:** Applicants who have started taking the demographic questions.
- **Survey:** Applicants who have started taking the survey.
- **In Certification:** Applicants who have started taking the certification.

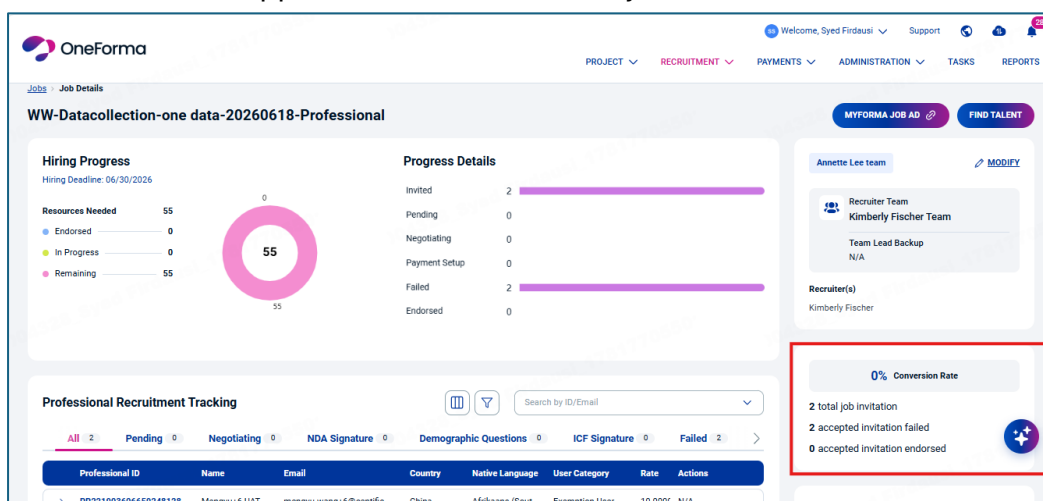

- **ICF Signature:** Applicants who are yet to sign the ICF signature.
- **Failed:** Applicants who declined the job invite or who have failed certification or were rejected
- **Endorsed:** Applicants who are endorsed for the job
- **Hired:** Applicants who were assigned with tasks
- **Excluded:** Applicants that are excluded from the team management section to perform tasks

Conversion Rate

View the applicant conversion percentage for the job.

- Total number of applicants
- Number of applicants failed the job application
- Number of applicants endorsed for the job

MyOneForma Job Ad

To copy and share the job link directly with applicants, click **MyOneForma Job Ad**.

Find Talent

The **Find Talent** button is available only for Crowd and Professional for the following job categories:

- Annotation/Labelling
- Judging/Grading
- Transcription
- Translation
- LLM

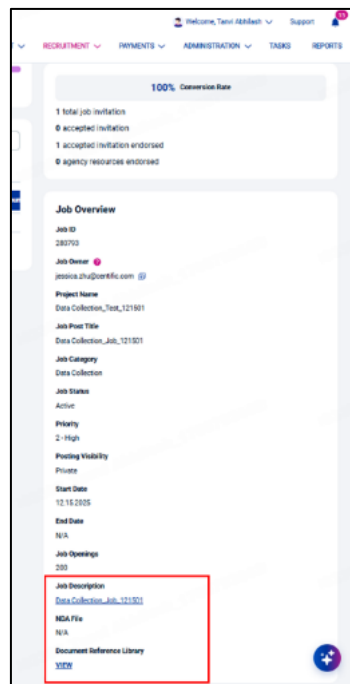

Applicant Tracking

Track applicants at each stage of their job application workflow.

Job Overview

View additional details specific to the project, such as job description and the project documents uploaded by the Project Manager.

1. Click the text link available under **Job Description**.
2. Click **View** under **Document Reference Library** to view project guideline or internal documents uploaded by PM.

For Agencies:

The following sections are for Agency resources:

Hiring Progress

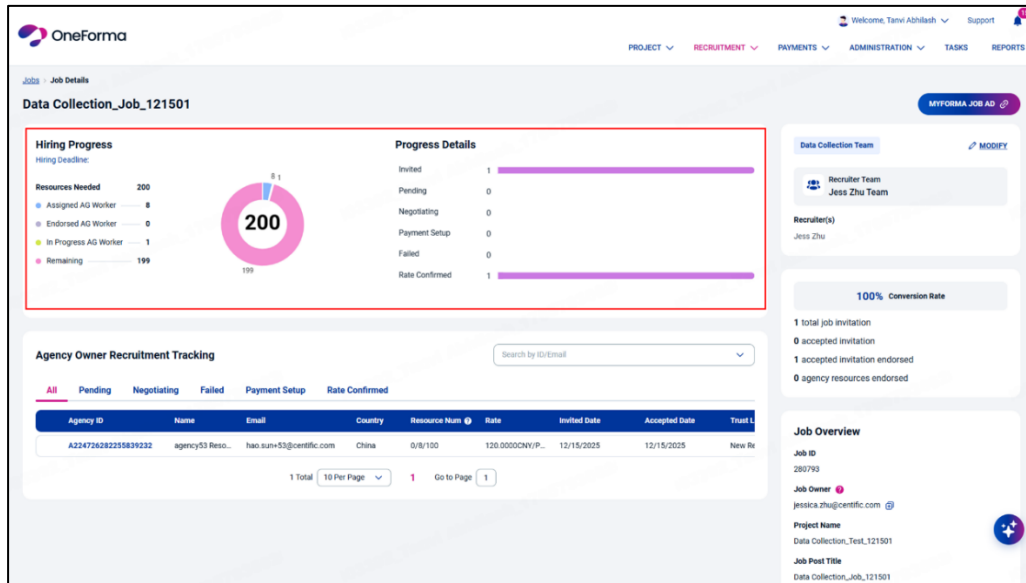

Displays the following hiring details:

- **Resources Needed:** The number of applicants required
 - **Assigned Resources:** The number of agency worker applicants assigned to the job
 - **Endorsed Resources:** The number of agency worker applicants endorsed for the job
 - **In Progress Resources:** The number of agency worker applicants who are in different stages of the job application workflow
 - **Remaining:** The number of Resources Needed minus Endorsed AG Worker

Progress Details

Displays the number of applicants at each stage of the job application workflow:

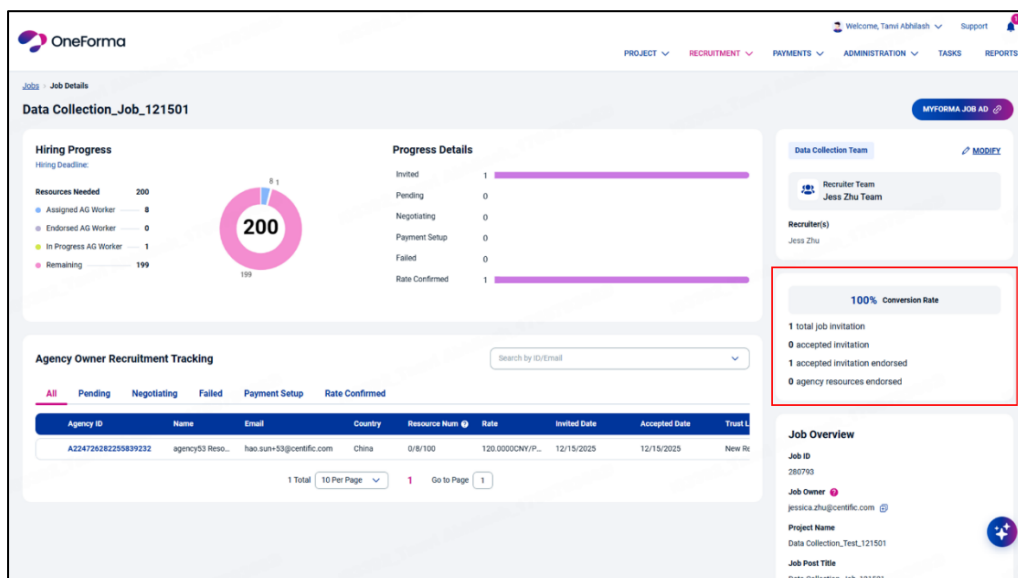

- **All:** All Agencies invited for the job.
- **Pending:** Agencies that are yet to act on the job invite
- **Negotiating:** Agencies who have accepted the job invitation but are negotiating service rates.
- **NDA Signature:** Agency workers who are in the process of signing the NDA document.
- **Demographic Questions:** Agency workers who have started taking the demographic questions.
- **Survey:** Agency workers who have started taking the assigned surveys.
- **ICF Signature:** Agency workers who have started
- **Failed:** Agency workers that declined the job invite or rejected by the Recruiter or the assigned Agency Worker failed the job application process
- **Rate Confirmed:** Agencies that are endorsed for the job

Conversion Rate

View the applicant conversion percentage for the job.

- Total number of applicants
- Total number of applicants that have accepted the job invite
- Total number of applicants endorsed for the job
- The number of agency worker resource applicants' endorsed for the job

MyOneForma Job Ad

To copy and share the job link directly with agency applicants, click **MyOneForma Job Ad**.

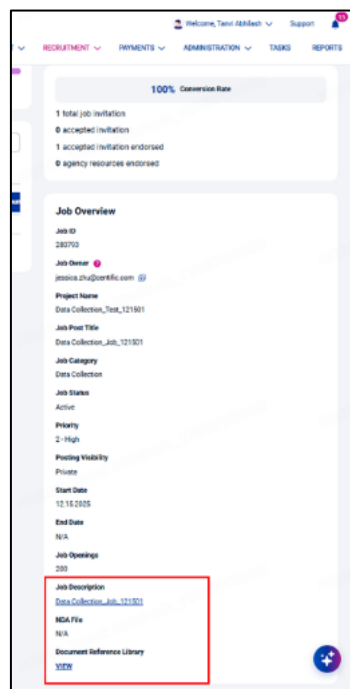

Applicant Tracking

Track applicants at each stage of their job application workflow.

Job Overview

View additional details specific to the project, such as job description and the project documents uploaded by the Project Manager.

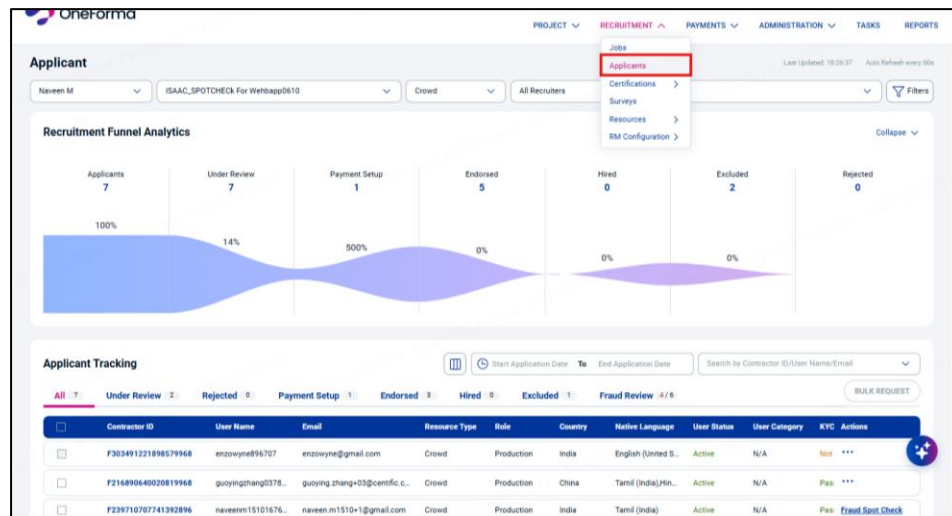

1. Click the text link available under **Job Description**.
2. Click **View** under **Document Reference Library** to view project guideline or internal documents uploaded by PM.

Applicant Tracking Table

This page provides a comprehensive view of the applicants in the job application process. This includes the **Recruitment Funnel Analytics** dashboard and the **Applicant Tracking** table.

1. Navigate **Recruitment** module and select **Applicants**.

View Applicant Status

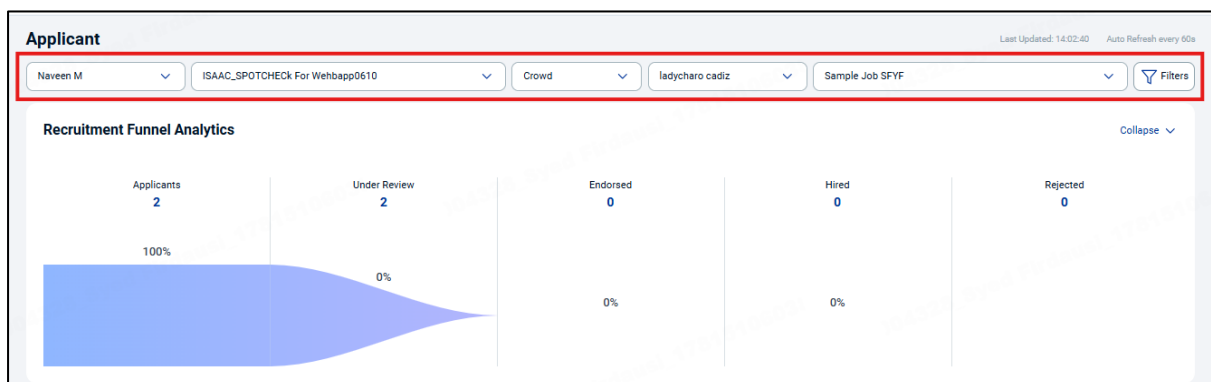

You can use the standard and advanced filters to view the following sections:

- Recruitment Funnel Analytics
- Applicant Tracking Table

Applying Standard Filters

1. Use the following drop-down fields to filter applicants:

- Project Manager
- Project Name
- Resource Type (crowd/professional/agency worker)
- Recruiter Name
- Job Name

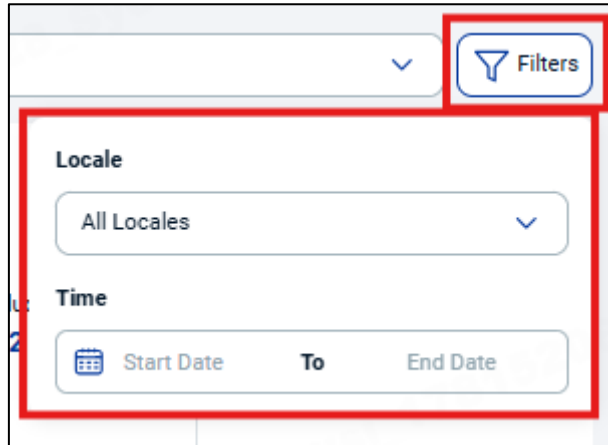

Note: Select each filter in sequence to view the options applicable to the next filter.

Applying Advanced Filters

You can also click the funnel icon to use advanced filters.

- Select the locale(s).
The system displays locales of all the jobs associated with the project.
- Select the date range to see job(s) between the selected dates.

Review Recruitment Funnel Analytics

Displays a quantitative overview of applicants' activity and progression of the selected job.

Review Applicant Tracking Table

This section displays applicant statuses for the selected job across the recruitment workflow.

You will see applicant information under any given tab if the applicant has moved through that job application stage. Use the **Application Date Range** filter to see the list of applicants or search applicants by contractor ID, username, and email.

Note: Click the **Column icon** to select additional columns, as required, in the Applicant Tracking table.

For Crowd:

Stages of Job Application Workflow

The tabs displayed in the Applicant Tracking table are determined by the project configuration. Tabs such as **NDA**, **ICF**, and **File Signature** are displayed only if they were included as part of the published project.

After you reach the Applicant Tracking table, do the following:

1. Click the **Column** icon and select the columns that need to be tracked.

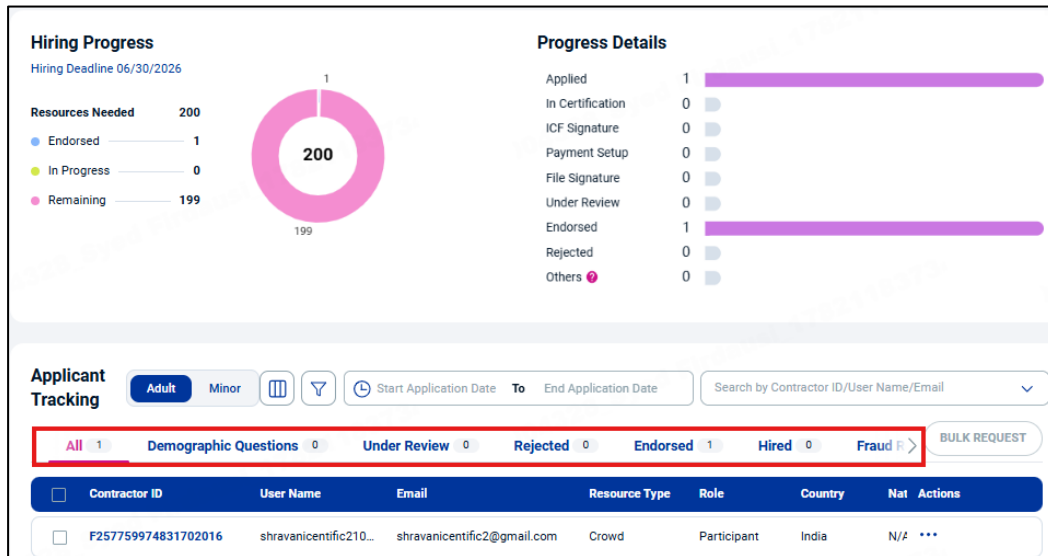

Contractor ID	User Name	Email	Resource Type	Role	Country	Native Language	User Status	User

You can view the crowd user job applications on the Applicants page.

The following tabs in the Applicant Tracking table are fixed.

- **All:** Displays all the Crowd applicants.
- **Under Review:** Displays applicants who have completed the job application workflow and are under recruiter review.
- **Rejected:** Displays applicants who have been rejected by the recruiter or who failed the job application process
- **Endorsed:** Displays applicants whose job applications have been approved and who are hired for the job.
- **Hired:** Displays applicants who have been endorsed and assigned a task by the Project Manager.

- **Fraud Review:** You can click the **Fraud Spot Check** to raise a manual fraud review; if the review is available, you can view the report from the same tab.

The following tabs in the Applicant Tracking are dynamic and may be visible depending on the project configuration, as mentioned in the Notes section.

- **NDA Signature:** Displays applicants who are required to sign the NDA document.
 - **Personally Identifiable Information (PII):** Displays applicants who are required to sign the PII document.
 - **Demographic Questions:** Displays applicants who have started taking the demographic questions.
 - **Survey:** Displays applicants who have started taking the survey.
 - **In Certification:** Displays applicants who have started taking the certification.
1. Navigate to the **In Certification** tab.

Request Fraud Spot Check

The Fraudulent Spot Check feature enables authorized internal users to perform a structured review of resources when fraudulent activity is suspected.

When you initiate a Fraud Spot Check, a request is sent to the Fraud Manager for investigation. After reviewing the case, the Fraud Manager can mark the resource as either Pass or Fail.

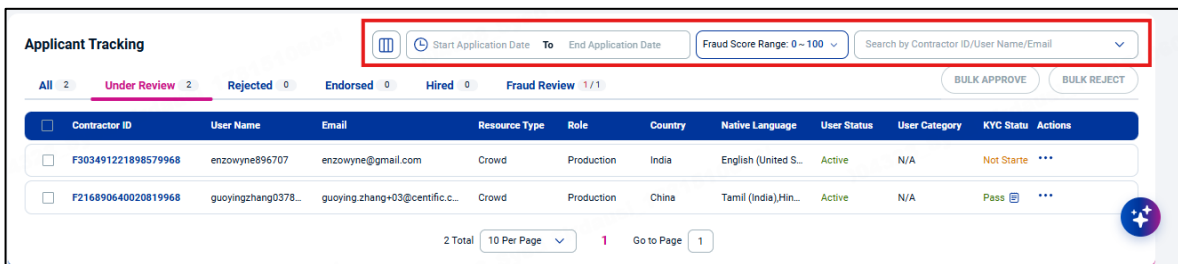

- **Pass** – The resource is cleared of fraud concerns and can continue participating in jobs and projects without any changes.

- **Fail** – The resource is identified as fraudulent. The system will automatically deactivate the resource’s account. The internal user who initiated the spot check is notified and can take appropriate action.

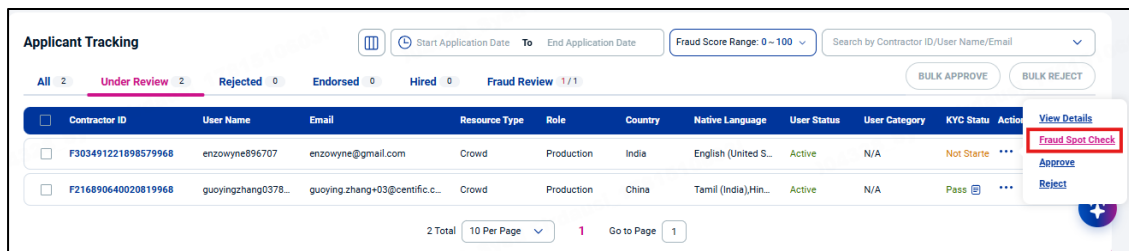

A Recruiter can initiate an individual Fraud Spot Check if suspicious activity is identified at any stage of the resource job application workflow, i.e. when the resource is in any status before Endorsed status.

Flag Individual Applicant for a Fraud Check Review

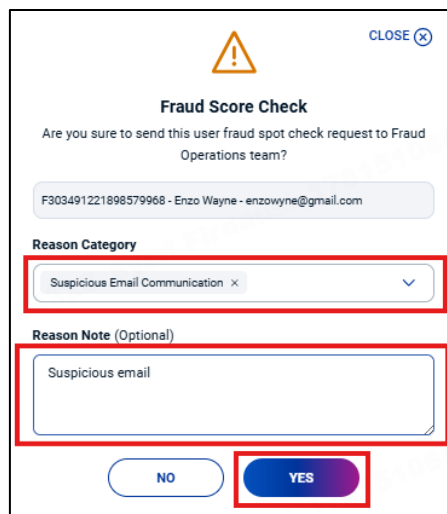

The Fraud Spot Check option is available to recruiters for resources at all statuses, except for Rejected and Fraud Review states. While recruiters can request a spot check at any stage, their response responsibility is limited to the pre-endorsement phase.

1. Under the **Actions** column, click the **ellipsis** icon and select **Fraud Spot Check**.

2. In the **Fraud Score Check** dialog box, select the relevant **Reason Category**.
3. Enter your reasoning, if required, under **Reason Note**.
4. Click **Yes**.

5. Navigate to the **Fraud Review** tab to view the report.

Note: The Fraud Manager must complete their fraud assessment report before it becomes available here.

Fraud Spot Check Failure Notification

When a resource fails the fraud spot check, the system automatically displays a notification to the respective internal users upon login.

Note: The system also performs fraud check based on the fraudulent measures configured during project creation; after the fraud review is completed, the job owner is notified by the system if the applicant fails the fraud review process.

Job Owner Notification

The notification informs the Job Owner that some resources in their job have been identified as fraudulent and need to be removed from the job. The Job Owner can choose one of the following actions:

- **Review Later** – Dismiss the notification and review the resource(s) in the Applicant Tracking table later before taking action.
- **Reject Now** – Immediately reject and remove the resource(s) from the Applicant Tracking table.

Action Required:
Deactivated Spot Check Resources

The following resources have failed the Spot Check and have been deactivated.
You must review and take action before accessing the system.

Affected Resources 2

Endorse/Reject Applicants

After an applicant submits their job application, the status moves to **Under Review**. As a recruiter, you can then choose to endorse or reject the application.

1. Navigate to the **Recruitment** and select **Applicants**.
2. Use the Search filters to locate the applicant.

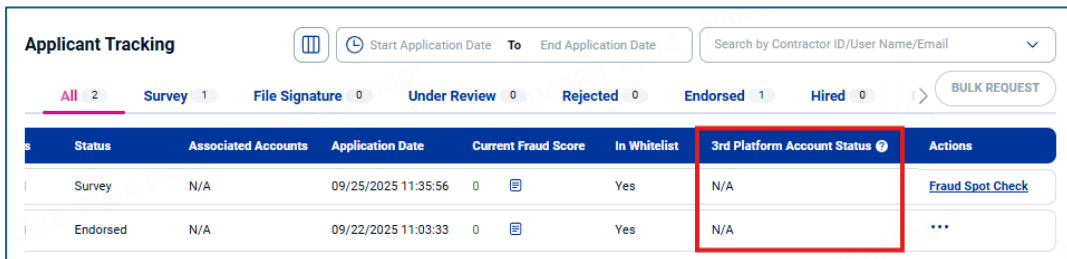

3. Navigate to the **Under Review** tab.
 4. Locate the applicant.
 5. Go to the **Actions** tab and click:
 - a. **Approve** to accept the job application; the applicant moves to the **Endorsed** list.
 - b. **Reject** to reject the job application; the applicant moved to the **Rejected** list and the system automatically sends a rejection notification email.
- Note:** You can also multi-select applicants and click **Bulk Approval** or **Bulk Reject**.

For UHRS

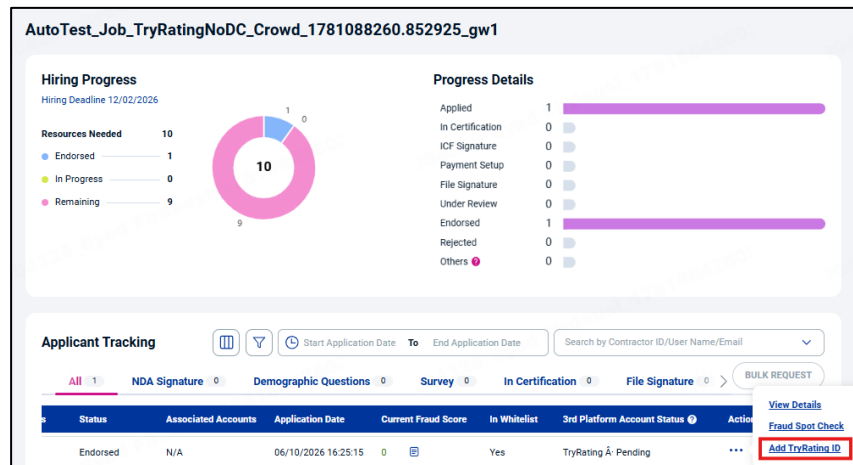

- After the applicant is endorsed, OneForma triggers an API call to the UHRS platform. This auto-creates the user account within the UHRS platform.
- On successful registration, the platform:
 1. returns a **Judge ID**.
 2. auto-updates the 3rd Account Status to **Active**.
- A confirmation email is also sent to the user.

Status	Associated Accounts	Application Date	Current Fraud Score	In Whitelist	3rd Platform Account Status	Actions
Survey	N/A	09/25/2025 11:35:56	0	Yes	N/A	Fraud Spot Check
Endorsed	N/A	09/22/2025 11:03:33	0	Yes	N/A	...

For TryRating

- After the applicant is endorsed, the Project Manager sets up the applicant profile in the TryRating platform.
- After the account is initialized, the recruitment team performs the following.
 1. Navigate to **Hired** list.
 2. Click **Actions**.
 3. Select Add TryRating ID and enter the ID.

Endorse Minor Applicant (Data Collection)

1. From **Recruitment**, Select **Job**,
2. Select the relevant Job.
3. Navigate to the tracking table.
4. Use the Adult/Minor toggle to view the minor applicant details.
5. Select the **Live Interview** tab.

Applicant Tracking Adult **Minor**

8. Click **Yes** to confirm.

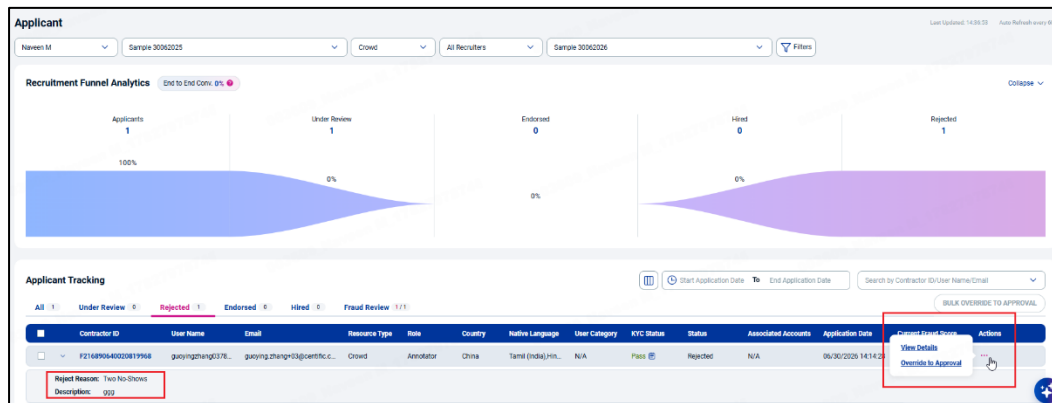

Override Job Application Status

There are certain instances where a crowd applicant gets rejected due to demographic mismatch or when deviating from system-installed fraudulent measures, including certification.

You can override the rejection status of such applications and add them back in the job application workflow.

Other Rejections

1. In the Applicant Tracking table, navigate to the **All** tab.
2. Go to the Actions column, click the ellipsis menu and select **Override to Approval**.

Override Certification Result

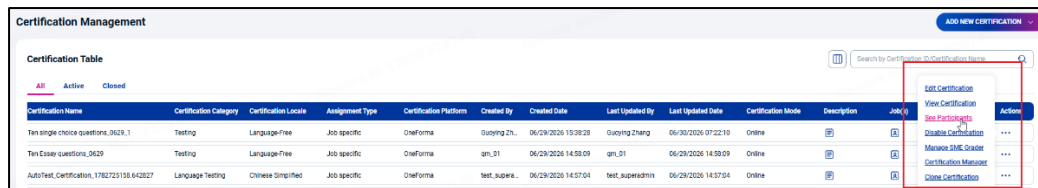

You can also override the certification status of applicants from fail to pass if deemed necessary.

However, you can view the certification results and modify the certification scores by going to the Certifications menu.

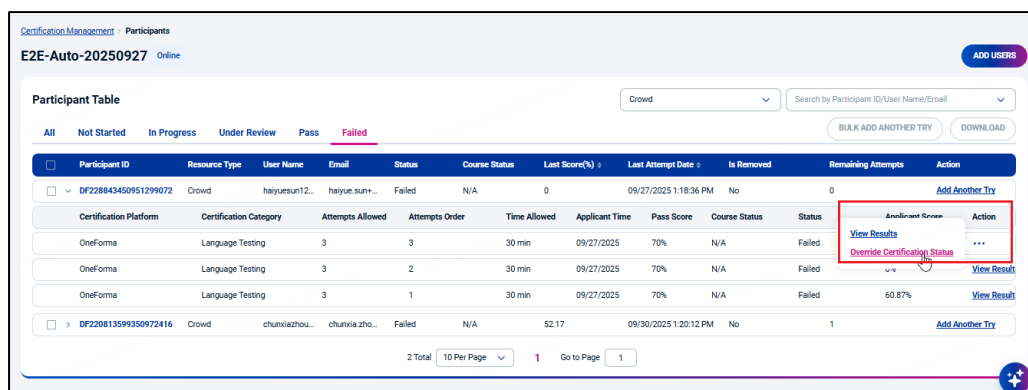

1. Select the **Recruitment** menu, followed by **Certifications** and **Certification Management**.

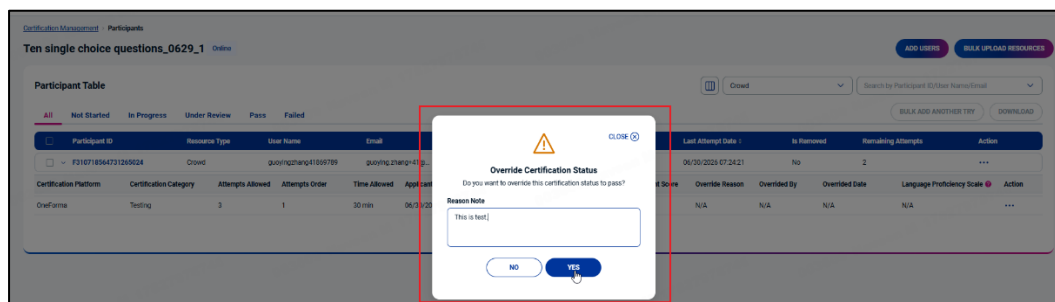

2. Select the relevant certification, go to the **Actions** column and click the ellipsis menu to select **See Participants**.

3. Locate the relevant applicant and expand the contractor ID.
4. Go to the **Action** column and click the ellipsis icon to select **Override Certification Status**.

5. Enter the reason and click **Yes**.

Important: After an applicant is endorsed, they move to the payment setup stage.

- If the payment has been configured already, the applicant will move to the **hired** stage where the Project Manager starts assign tasks.

- If the payment isn't configured yet, the applicant will then move to the Payment Setup stage.

Demographic Question Filter (Data Collection)

This advanced filter applies to all jobs with demographic question enabled and is mainly used in Data Collection jobs. You can use advanced filters to find relevant resources based on their demographic survey results and track their progress. These demographic bins are configured by PM/RM.

- Click the **Demographic Filter (Funnel)** icon to open a **Demographic Bin Filter** panel that allows you to view and filter applicants by their demographic bin assignments. It serves the following purposes:
 - View Demographic Bin Hiring Progress:** Displays all configured demographic bins for the job, showing key metrics for each bin.
 - Filter Applicants by Demographic Bin:** You can select a specific demographic bin from the filter panel to filter the Applicant Tracking table, showing only applicants who match that bin's criteria — for example, a specific combination of gender, age group, ethnicity, skin tone, or location.
 - Track Quota Fulfilment:** By comparing the Hired count against the Needed count-per bin, recruiters can quickly identify:
 - Which bins are full (quota met → job may go on hold)
 - Which bins still have open slots and need more applicants
 - Overall demographic distribution coverage

- Set your preference in the **Demographic Question Filter**.
- Click **Submit**.

The below table provides an explanation of the column names specific to demographic bins.

Column	Description
Needed	Number of resources needed for the job
Buffer	Accepted extra margin accounting for uncertainties like absenteeism, workload spikes, rework, or delays

Hired	Number of resources hired for the job
-------	---------------------------------------

For Professional:

Stages of Job Application Workflow

The **Applicants** page has the following tabs, indicating the status of Professionals across the recruitment workflow.

- **All:** Displays all Professionals in all the statuses.
- **Pending:** Professionals who are yet to respond to the posted job invite.
- **Negotiating:** Professionals who are negotiating their service rate offerings.

Note:

- After this step, the professional resource moves to the Onboarding process.
 - The following onboarding process tabs will appear only based on the project configuration and in the given order:
 - NDA Signature
 - Demographic Questions
 - Survey
 - In Certification
 - ICF Signature
 - If no additional steps are required, they move directly to **Endorsed** or **Failed** status depending on the recruiter action.
- **Failed:** Professionals who have failed the demographic question or survey or were rejected by the recruiter.
- **Payment Setup:** Professionals who are required to complete their payment set up.
- **Endorsed:** Professionals who got successfully endorsed for the job.
- **Excluded:** Professionals who are removed from the project by the Project Managers.
- **Hired:** Professionals who are part of production

Endorse/Reject Professional

After a job for the professional resource type is published, you must invite the professional resources to apply.

The applicant moves to the **Negotiating** stage of the job application workflow after they accept the invite. As a recruiter:

- You can approve or reject the service offering rate requested by the applicant.
- You can also assign new rates for applicant(s) or set an existing approved service rate as default service rate.

Matching Criteria: The service rates are applied to existing service offerings of the applicant. Therefore, the following service offering attributes (service group, service name, and service details, including source and target language) must match the job attributes.

1. In the Applicant Tracking table, navigate to the **Negotiating** tab.
2. Locate the relevant applicant, go to the **Actions** column and select **Approve Rate**.

Note:

- You can also search for the relevant applicant using their ID or email address.
- You can also select **Reject Rate** to reject the applicant; after an applicant's rate is rejected, they move to the failed list.

For Crowd:

AI Fraud Narrative

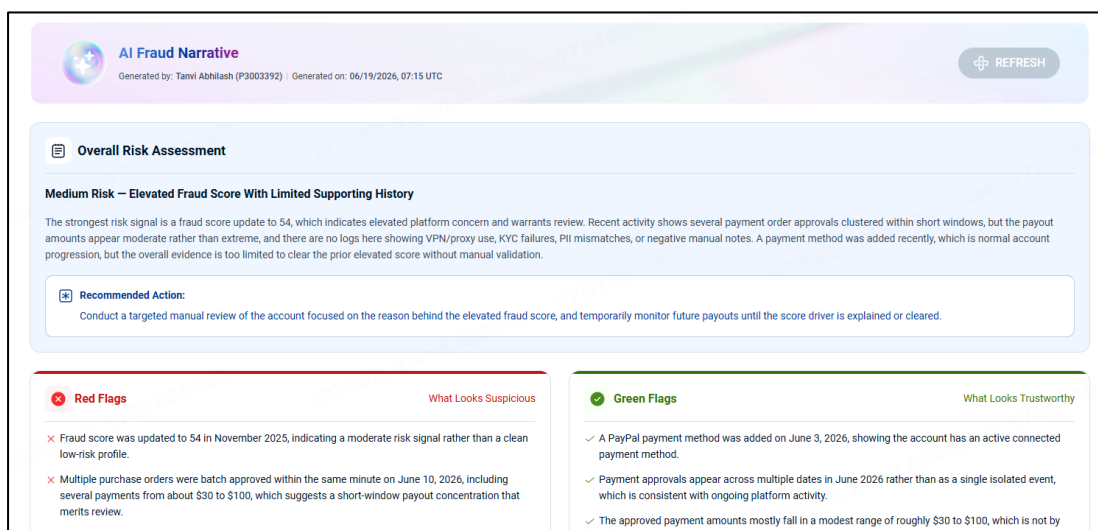

This section describes how to generate an **AI Fraud Risk Summary** for a resource. The summary provides an AI-generated, plain-language assessment of the resource's fraud risk based on completed fraud review dimensions. It enables authorized internal stakeholders, including Recruiters, Project Managers, and Fraud Managers, to quickly assess fraud risk and make informed decisions. Each summary includes the report generation date, allowing users to verify that they are viewing the latest assessment.

1. Click the relevant contractor ID.
2. Click **AI Narrative**.
3. Click **Generate**.

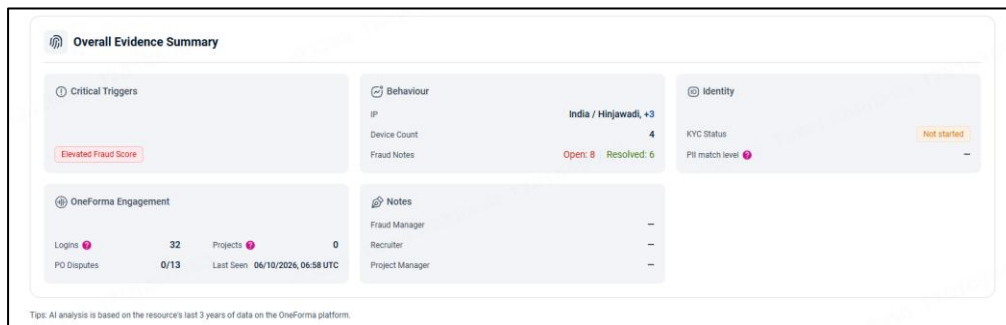

AI Fraud Risk Summary Report

View the user who generated the AI Fraud Risk Summary, along with the generation date and time. The timestamp helps stakeholders determine the relevancy of the assessment. Any authorized user can refresh the report to generate an updated assessment.

The report contains the following sections:

- **Overall Risk Assessment:** Displays the AI-generated fraud risk classification of the resource, such as Low Risk, Medium Risk, or High Risk, along with a plain-language explanation summarizing the factors that contributed to the assessment.
- **Recommended Action:** Displays the AI-recommended next steps based on the overall fraud assessment, such as allowing the account to remain active, performing additional reviews, or taking further action if potential fraud indicators are identified.
- **Red Flags:** Displays the suspicious activities or fraud indicators identified during the evaluation. If no suspicious behavior is detected, the section displays **N/A**.
- **Green Flags:** Displays the positive indicators that support the resource's legitimacy, helping reviewers understand why the resource is considered trustworthy.
- **Overall Evidence Summary:** Displays a consolidated summary of the evidence used to generate the fraud risk assessment.

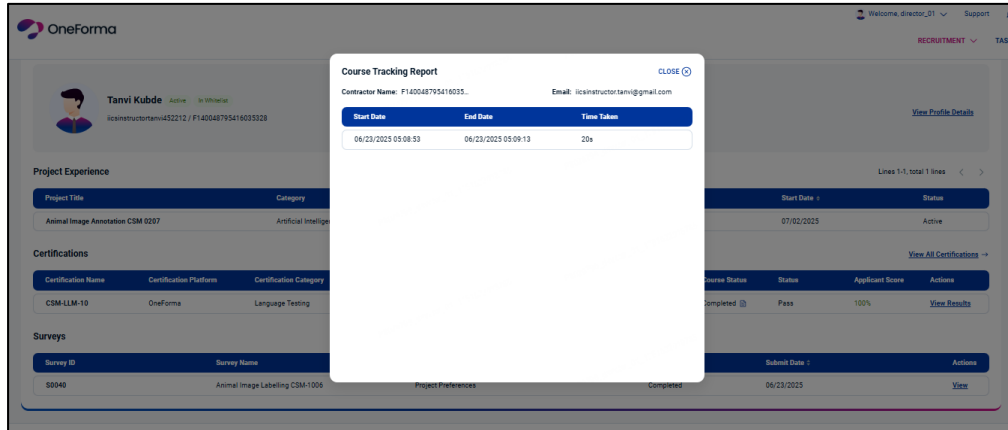

The evidence is grouped into the following categories:

- **Behavior:** Displays behavioral information such as IP location, device count, and fraud note statistics.
- **Identity:** Displays identity verification details, including KYC status and PII match status.
- **OneForma Engagement:** Displays platform activity information such as login count, project participation, payment order disputes, and last activity date.
- **Notes:** Displays review notes added by Fraud Managers, Recruiters, or Project Managers, when available.

Note: The report is generated based on the resource's data from the last three years on the OneForma platform. Each report includes the generation date to indicate when the assessment was created, ensuring users can verify that they are reviewing the most recent fraud evaluation.

OneForma Experience

- Click **View All Experiences** to see the overall project experience of the applicant.
- Click **1.0 History** to see the overall project experience of the applicant in OneForma 1.0.

Fraud Note

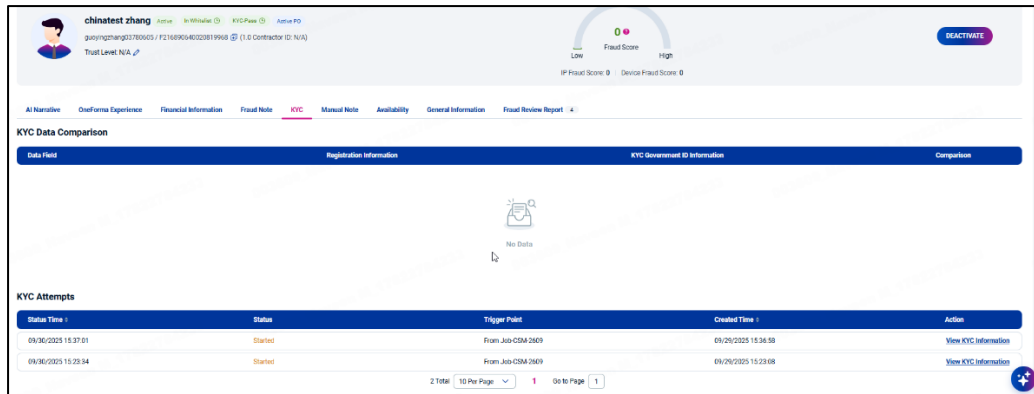

- **Fraud History:** Use the filters to display all the recorded fraudulent notes of the user; click **Resolve** to clear the fraud history of the applicant, however this action doesn't remove the fraud notes associated with the applicant.

The screenshot shows the 'Resource Details' page for 'chintest zhang'. The 'Fraud Note' tab is selected. It displays a table with columns: Fraud Rule, Fraud Note, Trigger Event, Created Date, and Action. There are two entries in the table, both with a 'Resolve' button. The interface also includes a 'Resolve' button at the top right and a 'Go to Page' dropdown at the bottom.

KYC

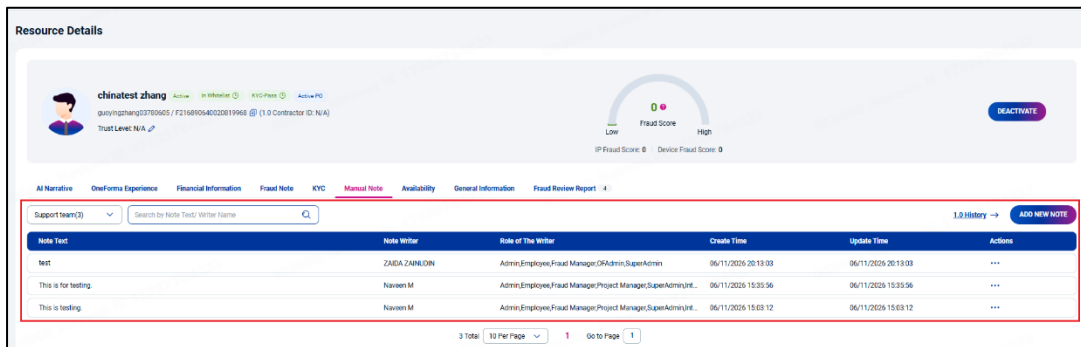

- **KYC Attempts:** Displays the KYC attempts, including when and where the KYC was initiated. Click **View KYC Information** to see the comprehensive details.

The screenshot shows the 'Resource Details' page for 'chintest zhang'. The 'KYC' tab is selected. It displays a 'KYC Data Comparison' section with a table showing 'Data Field', 'Registration Information', 'KYC Government ID Information', and 'Comparison'. Below this, the 'KYC Attempts' section shows a table with columns: Status Time, Status, Trigger Point, Created Time, and Action. There are two entries in the table, both with a 'View KYC Information' button. The interface also includes a 'Go to Page' dropdown at the bottom.

Manual Note

- **Manual Note:** Use the filters and search options to view notes added manually by internal stakeholders, such as PM, Recruiter, Support team, Administrator, or the Super-Administrator. This includes fraud concerns and performance feedback of the resource on a specific project or job(s).

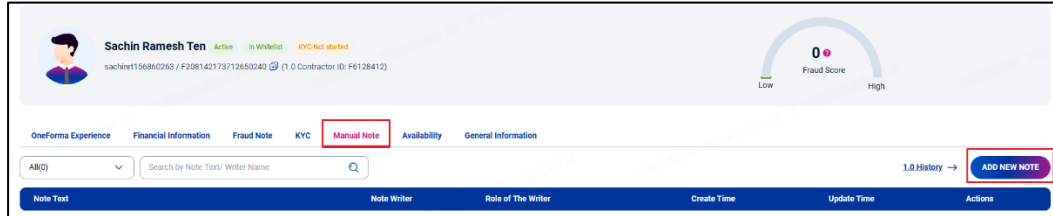

The screenshot shows the 'Resource Details' page for 'chintest zhang'. The 'Manual Note' tab is selected. It displays a table with columns: Note Text, Note Writer, Role of The Writer, Create Time, Update Time, and Actions. There are three entries in the table, each with a '...' button. The interface also includes a 'Support team(3)' dropdown, a search bar, and a 'Go to Page' dropdown at the bottom.

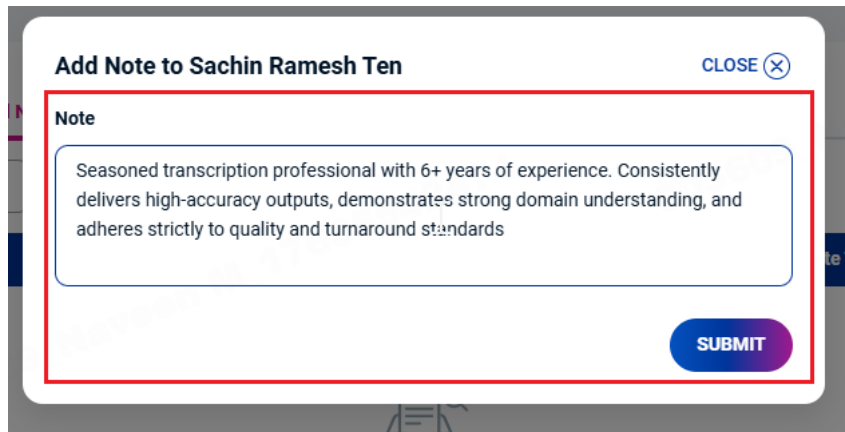

Add Note

Any authorized stakeholder can add any number of manual notes. After the notes are added, these manual notes become visible to all internal stakeholders.

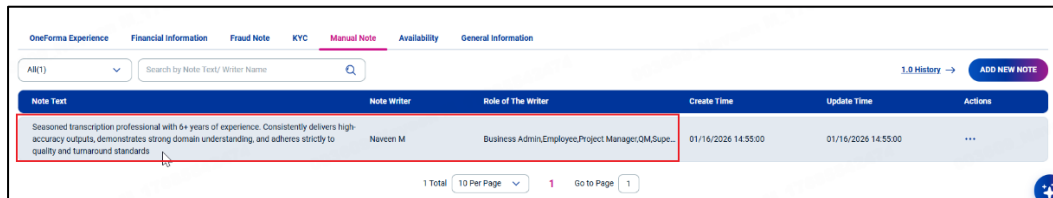

1. Click **Add New Note**.

2. Enter your comments and click **Submit**.

3. View the note that you have added.

Note Text	Note Writer	Role of The Writer	Create Time	Update Time	Actions
Seasoned transcription professional with 6+ years of experience. Consistently delivers high-accuracy outputs, demonstrates strong domain understanding, and adheres strictly to quality and turnaround standards	Naveen M	Business Admin,Employee,Project Manager,QM,Supe...	01/16/2026 14:55:00	01/16/2026 14:55:00	...

Edit/Delete Note

Only the creator will be able to edit or delete the notes.

1. Locate the note you have added.
2. Under the **Actions** column, click the ellipsis icon and select **Edit** or **Delete** based on your requirement.

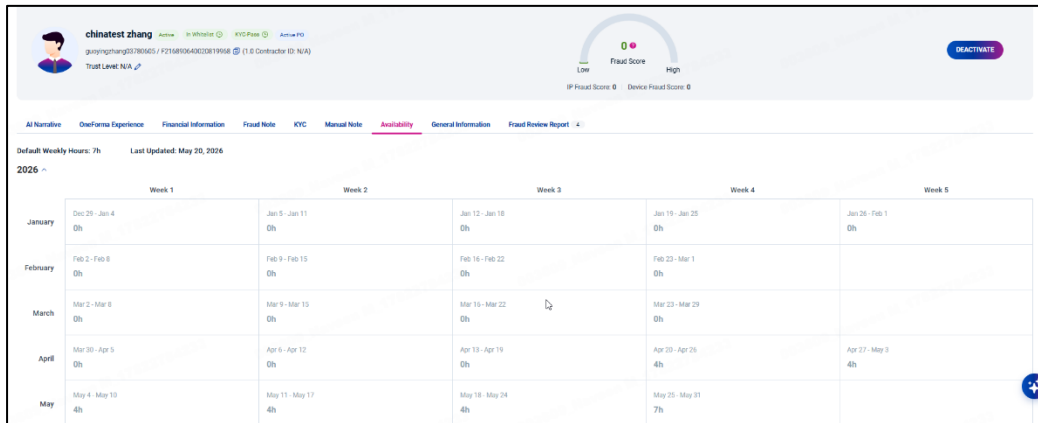

Note Text	Note Writer	Role of The Writer	Create Time	Update Time	Actions
Seasoned transcription professional with 6+ years of experience. Edit Delete

3. If you have selected **Edit**, edit the note text in the text box and click **Save**.

Availability

- **Availability:** Displays the availability details of the resource. This helps the recruitment team with job assignments.

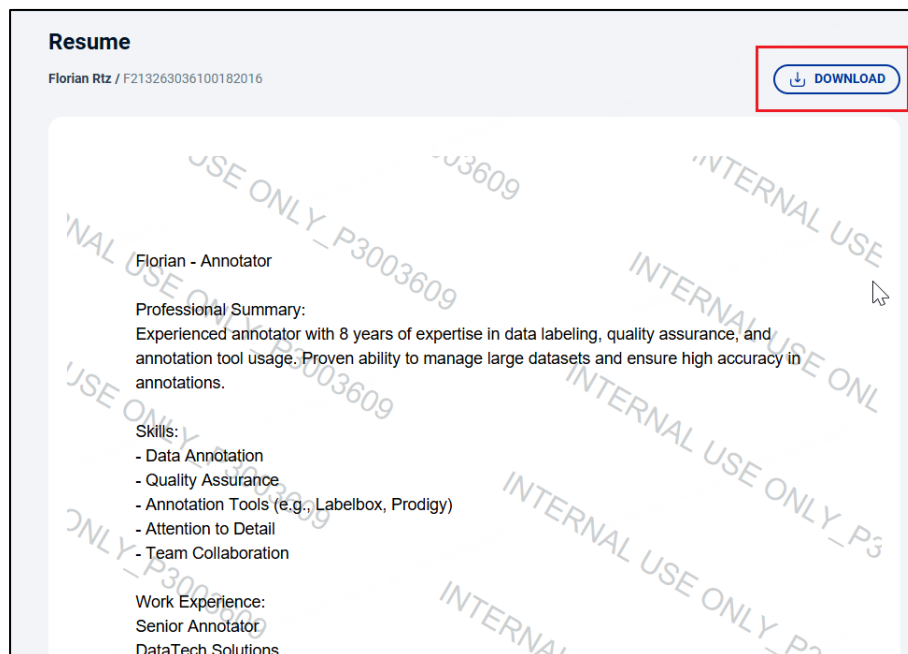

General Information

- **Personal Information:** Displays information such the Legal Full Name, First and Last Name, Date of Birth, etc.
- **Contact Information:** Displays information such as the Address, Country of residence, Phone, Email, etc.
- **Identifiers:** Displays usernames and IDs of various tasks platforms like Microsoft, ATMS and device related information like Device ID, Login Timestamp, etc.
- **Device Data:** Display device related information.
- **Work Experience:** Displays work experience.
- **CV/Resume:** Displays resume.
 - Click on the **hyperlinked text** to preview the resume.

- Click **Download** to download the CV/Resume.

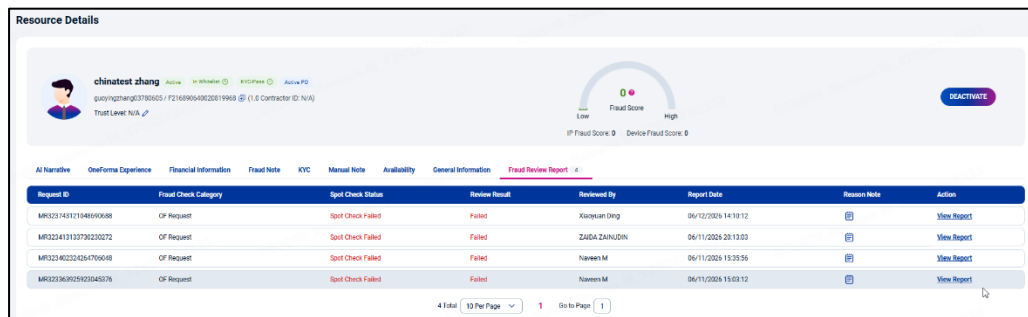

- **Domain/Sub Domain:** Displays the Domain/Sub Domain Score.

- **Expertise:** Displays area of expertise.
- **Skills:** Displays skills.
- **Interests:** Displays interests.
- **Industries:** Displays industry experiences.
- **Education:** Displays education.
- **Languages:** Displays languages known to the user.
- **Sub Accounts:** Displays names, gender, age and relationship details of associated members; this is specific to data collection.
- **Pets:** Displays information on pets used for data collection jobs.
- **Data Privacy & Consent:** Click the hyperlink on any of the links to see the resource's consent to data protection and privacy controls.

Fraud Review Report

- **Fraud Review Report:** Click **View Report** to access the fraud spot check assessment performed by the Fraud Manager. Hover over the report icon to view the reason for the fraud spot check request.

Request ID	Fraud Check Category	Spot Check Status	Review Result	Reviewed By	Report Date	Reason Note	Action
MR223143171348690388	OF Request	Spot Check Failed	Failed	Xiaoqian Ding	06/12/2025 14:19:12		View Report
MR22314317133730230272	OF Request	Spot Check Failed	Failed	ZAFDA ZANUDINI	06/11/2025 20:13:03		View Report
MR22314317133730230272	OF Request	Spot Check Failed	Failed	Naveen M	06/11/2025 15:25:56		View Report
MR22314317133730230272	OF Request	Spot Check Failed	Failed	Naveen M	06/11/2025 15:03:12		View Report

Note: Resources are automatically subjected to a fraud review based on platform-configured fraud detection rules. If a resource fails the review, the Job Owner, the Project Owner (PM Owner), and the Client Owner (PSA PM) are notified to review the outcome and take appropriate action.

Request ID under **Fraud Review Report** is prefixed in the following manner:

- **AR:** Automatic fraud review (triggered by the system); the report generated from this type shows the complete history of the user's fraudulent activities since they boarded into OneForma.
- **MR:** Manual fraud review (requested by RM or PM)

For Professional:

OneForma Experience

- **Project Experience:** Displays projects the applicant has participated in and the status of each project; click **View all Experiences** to view all the projects and click **1.0 History** to view projects from the legacy platform.

- **Job Application History:** Displays all the jobs they have applied to. Click **View all History** to view all the jobs and click **1.0 History** to view jobs from the legacy platform.
- **Certifications:** Displays all certifications the applicant attempted for the job.
 - To view all the certifications the user has taken click **View All Certifications**.
 - To add additional attempts, click **Add Another Try**.
 - Expand the certifications details and click **View Details** to review the applicant's answers and results.
